
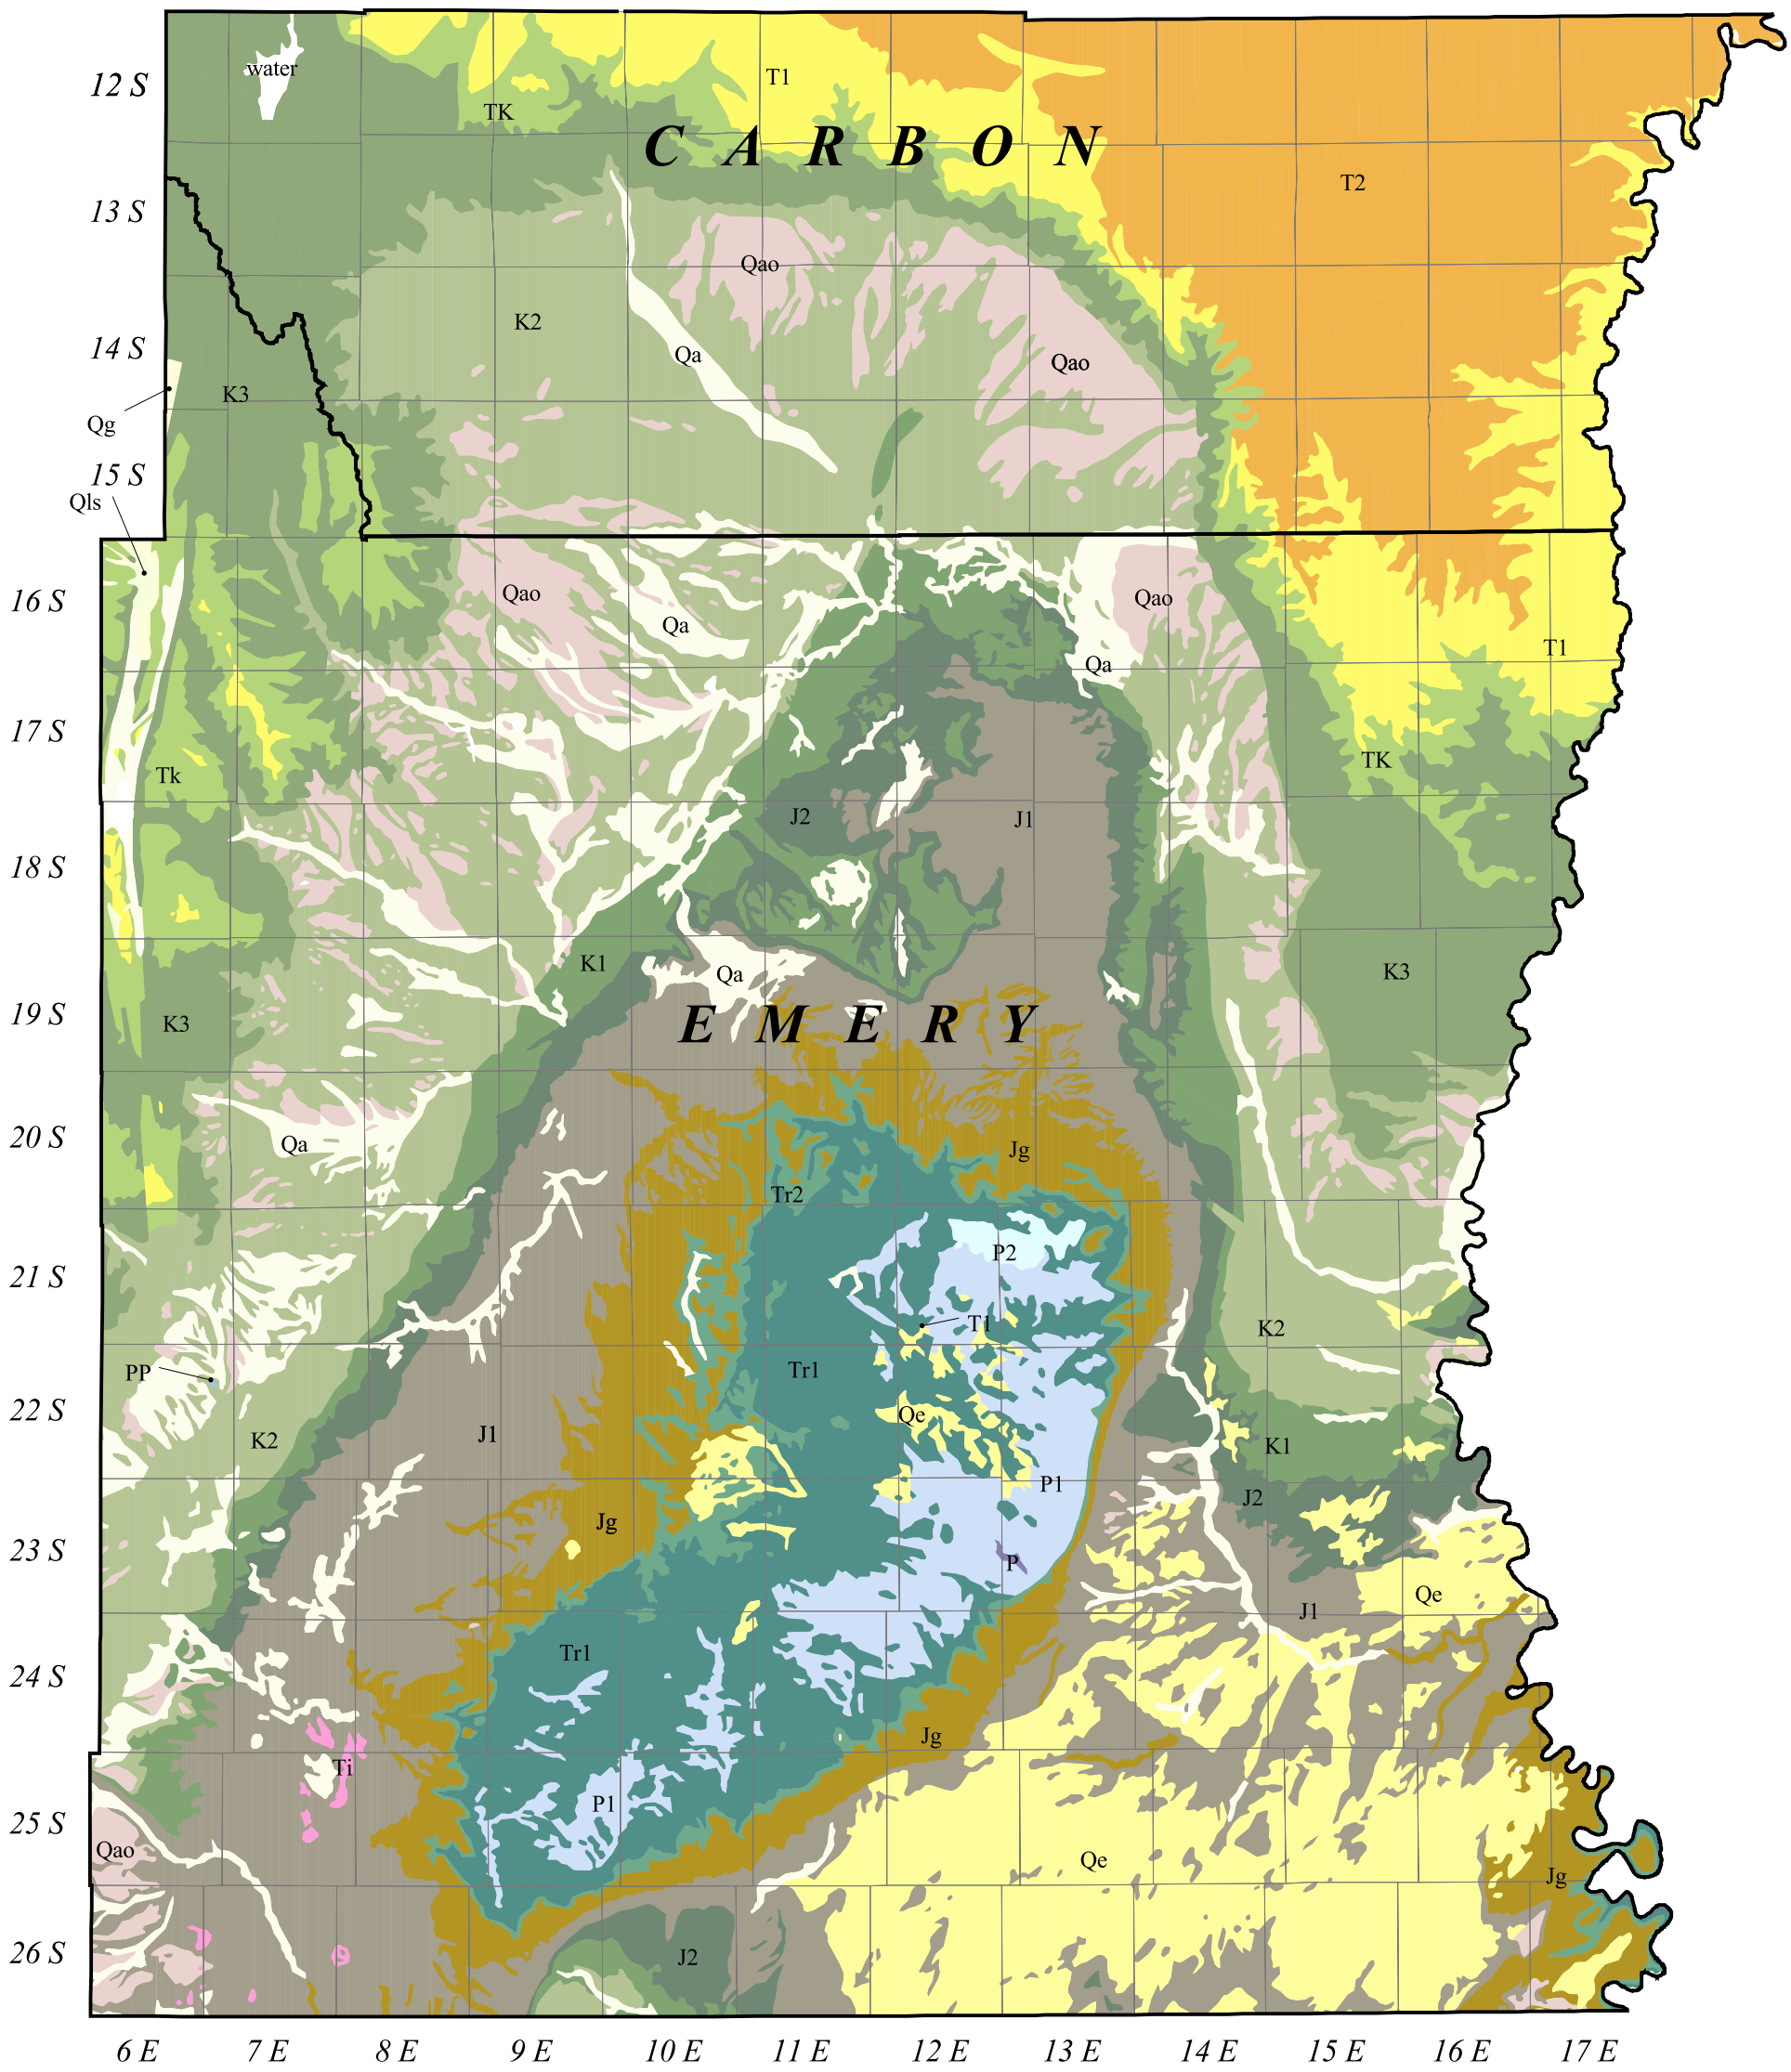

Map 3-3: Geology of the Planning Area

- Quaternary, Alluvium & Colluvium (Qa)
- Quaternary, Older Alluvium & Colluvium (Qao: includes Pediment mantle deposits)
- Quaternary, Eolien (Qe)
- Quaternary, Glacial (Qg)
- Quaternary, Landslides (Qls)
- Tertiary, Uinta & Crazy Hollow Formations (T3)
- Tertiary, Green River Formation (T2)
- Tertiary, Wasatch/Colton Formation (T1)
- Tertiary, Igneous Intrusions (Ti)
- Tertiary/Cretaceous, Flagstaff Limestone (TK)
- Cretaceous, Price River Formation, Castlegate Sandstone, Blackhawk Formation & Star Point Sandstone (K3)
- Cretaceous, Mancos Shale (K2)
- Cretaceous, Dakota Sandstone & Cedar Mountain Formation (K1)
- Jurassic, Morrison Formation (J2)
- Jurassic, Summerville Formation, Curtis Formation, Entrada Sandstone, & Carmel Formation (J1)
- Jurassic/Triassic, Navajo Sandstone, Kayenta Formation, & Wingate Sandstone (Jg)
- Triassic, Chinle Formation (Tr2)
- Triassic, Moenkopi Formation (Tr1)
- Permian, Kaibab Limestone (P2)
- Permian, Cutler Group (P1)
- Permian/Pennsylvania, Rico Formation (PP)
- Pennsylvanian, Hermosa Group (P)
