

### Alternative D: Preliminary Priority and General Management Areas

Alternative D would designate and apply management actions to GRSG Preliminary Priority Management Areas (PPMAs) and Preliminary General Management Areas (PGMAs). PPMAs have the highest conservation value to maintaining or increasing GRSG populations, while PGMAs are areas outside PPMAs but that have seasonal or year round GRSG populations. Management actions in Alternative D emphasize balancing resources and resource uses, while sustaining and enhancing ecological integrity across the landscape.

- Preliminary Priority Management Areas (PPMAs)
- Preliminary General Management Areas (PGMAs)
