

# Alternative E: Greater Sage-Grouse Management Areas Occupied and Suitable Habitat

Alternative E is based on the State of Nevada's Conservation Plan for GRSG in Nevada (State of Nevada 2012). GRSG conservation measures would apply to occupied and suitable Sage-Grouse Management Areas (SGMAs), which are based on NDOW's GRSG habitat maps. Alternative E would not apply to lands in California.

- Greater Sage-Grouse Management Areas [SGMAs] Occupied
- SGMA Suitable
