The area described contains 2,233.07 acres in Crook County.

The total areas described in Wyoming aggregate 4,828.40 acres in Crook County.

The purpose of the withdrawal is to protect the Research Natural Areas and Botanical Areas and allow the USFS to explore administrative alternatives in managing the lands.

The use of a right-of-way, interagency agreement, or cooperative agreement would not provide adequate protection for these areas due to the broad scope and nondiscretionary nature of the general mining laws.

No alternative sites are feasible due to the resource significance of the areas. No water will be needed to fulfill the purpose of the requested withdrawal.

Records relating to the application may be examined by contacting the USFS, Rocky Mountain Region at the above address and phone number.

For a period until December 23, 2015, all persons who wish to submit comments, suggestions, or objections in connection with the withdrawal application may present their views in writing to the Forest Supervisor, Black Hills National Forest at the address indicated above.

Comments, including names and street addresses of respondents, will be available for public review at the Forest Supervisor’s Office, Black Hills National Forest, 1019 North 5th Street, Custer, South Dakota 57730, during regular business hours. Individual respondents may request confidentiality. Before including your address, phone number, email address, or other personal identifying information in your comment, be advised that your entire comment—including your personal identifying information—may be made publicly available at any time. While you can ask us in your comment to withhold from public review your personal identifying information, we cannot guarantee that we will be able to do so.

Notice is hereby given that public meetings in connection with the proposed withdrawal will be held at the Mystic Ranger District, 8221 South Hwy 16, Rapid City, South Dakota 67702 on October 27, 2015 at 6 p.m. and at the Sundance Community Center, Basement of the Crook County Courthouse, 309 Cleveland St., Sundance, Wyoming 82729 on October 28, 2015 at 6 p.m. The USFS will publish a notice of the time and place in a least one newspaper of general circulation no less than 30 days before the scheduled dates of the meetings.

For a period until September 25, 2017, subject to valid existing rights, the lands will be segregated from location and entry under the United States mining laws, unless the application is denied or canceled or the withdrawal is approved prior to that date. The lands will remain open to other uses within the statutory authority pertinent to National Forest lands and subject to discretionary approval.

The application will be processed in accordance with the regulations set forth in 43 CFR 2310.

Peter A. McFadden, Chief, Branch of Realty and Renewable Energy.

The Idaho and Southwestern Montana, Nevada, and Northeastern California, and Utah Draft Land Use Plan Amendments (LUPAs)/Draft Environmental Impact Statements (EISs) and Proposed LUPAs/Final EISs included proposed GRSG management direction for National Forest System lands. However, the U.S. Forest Service (USFS) has completed a separate ROD and Land and Resource Management Plans under USFS planning authorities. Management decisions within the ROD and ARMPAs apply only to BLM-administered lands.

Across all four sub-regions in the Great Basin Region, the ROD and ARMPAs amend existing land use plan decisions on a total of approximately 90 million BLM-administered surface acres.

A Notice of Availability (NOA) for the Great Basin Region GRSG Proposed LUPAs and Final EISs for the Idaho and Southwestern Montana, Nevada and Northeastern California, Oregon, and Utah sub-regions was published in the Federal Register on May 29, 2015, which initiated a 30-day protest period and a 60-day Governor’s consistency review period.

The BLM received 133 timely and valid protest submissions across all four Great Basin Proposed LUPAs/Final EISs. All protests have been resolved and/or dismissed. For a full description of the
issues raised during the protest period and how they were addressed, please refer to the Director’s Protest Resolution Reports for all four ARMPAs, which are available at the following Web site: http://www.blm.gov/wo/st/en/prog/planning/planning_overview/protest_resolution/protestreports.html.

The BLM received notifications of inconsistencies and recommendations as to how to resolve them during the Governor’s consistency review period from the States of Idaho, Montana, Nevada, Oregon, and Utah. The BLM also received a concurrence letter of consistency from the State of California. On August 6, 2015, the BLM State Directors for Idaho, Montana, Nevada, Oregon, and Utah sent notification letters to their respective States as to whether they accepted or rejected their recommendations for consistency. The States were then given thirty days to appeal the State Directors’ decisions. The States of Idaho, Nevada, and Utah appealed the BLM State Directors’ decisions. The BLM Director affirmed the State Directors’ decisions on these recommendations as the recommendations did not provide the balance required by 43 CFR 1610.3–2(e). The Director communicated his decisions on the appeals in writing to the Governors concurrently with the release of the RODs.

The Proposed LUPAs/Final EISs were selected in the ROD as the ARMPAs, with some minor modifications and clarifications based on protests received, the Governors’ consistency reviews, and internal agency deliberations.

DEPARTMENT OF THE INTERIOR
Bureau of Land Management

Notice of Proposed Withdrawal; Sagebrush Focal Areas; Idaho, Montana, Nevada, Oregon, Utah, and Wyoming and Notice of Intent To Prepare an Environmental Impact Statement

AGENCY: Bureau of Land Management, Interior.

ACTION: Notice.

SUMMARY: The Assistant Secretary of the Interior for Land and Minerals Management has approved an application to withdraw approximately 10 million acres of public and National Forest System lands identified as Sagebrush Focal Areas in Idaho, Montana, Nevada, Oregon, Utah, and Wyoming from location and entry under the United States mining laws to protect the Greater Sage-Grouse and its habitat from adverse effects of locatable mineral exploration and mining, subject to valid existing rights. This notice temporarily segregates the lands for up to 2 years while the application is processed. This notice also provides the public with an opportunity to comment on the proposed withdrawal application. In addition, this notice initiates the public scoping process for an Environmental Impact Statement (EIS) to analyze and disclose impacts of the proposed withdrawal.

DATES: Comments on the proposed withdrawal application or scoping comments on issues to be analyzed in the EIS must be received by December
