I strongly support the listing of the Greater Sage Grouse as an endangered species in Colorado.

The destruction, rape and pillage of the oil and gas industry for monetary gain at the expense of wildlife is inexcusable.

The fragile habitat of the Sage Grouse is disappearing. Further fragmentation of this habitat and destruction of it's resources cannot continue with out further harm to the Sage Grouse.

It is time to think about what is more valuable, financial gain, or preservation of a delicate ecosystem that can not be replaced.

As far as I am concerned, greed is not an option.

Sincerely,

Evelyn Grimm

Silt, CO
