Subject: Grouse Measures

To: [blm\\_nv\\_ccdowebmail@blm.gov](mailto:blm_nv_ccdowebmail@blm.gov)

Dear Nevada BLM,

I am writing in support of any and all measures you may take in an effort to preserve and enhance sage grouse habitat in your area. Please DO

- (1) set disturbance caps within BSSG habitat;
- (2) adjust buffers for tall structures near active or pending leks,
- (3) add a restriction for new high-voltage transmission lines
- (4) implement additional management direction for habitat connectivity.

Please do everything in your power to help the sage grouse in your area, even if it means greater restrictions on motorized travel in an effort to create or restore habitat connectivity. The sage grouse is an important species and deserves every right to live a good, full life on this planet.

Please adopt any measures you see fit to protect sage grouse.

Thank you.

Sincerely,

Heidi E. Blankenship
