

LUP AMENDMENT/MAINTENANCE SHEET

Office: Price Field Office

Plan Name: Price Field Office Record of Decision and Approved Resource Management Plan

Maintenance Change Number: G020-2009-003

Program: Minerals and Energy Resources

LOCATION OF CHANGE

Page Number: Approved Resource Management Plan (RMP) page 126, Management Decision MLE-9; and Record of Decision (ROD) pages 22 and 41

CHANGE

The ROD on pages 22 and 41 as well as the Approved RMP at page 126 provides an estimate of acreage that is available for leasing with stipulations.

These numbers have been modified as follows:

Areas open to leasing subject to standard terms and conditions of the lease form (~~1,161,000~~ 1,135,000 acres).

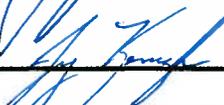

Areas open to leasing subject to moderate constraints (timing limitations; CSU, and lease notices) (~~467,000~~ 493,000 acres).

REASON(S)

The BLM has added a controlled surface use (CSU) stipulation for white-tailed prairie dogs into Appendix R-3 (Stipulations for Surface Disturbing Activities) (see LUP maintenance sheet G020-2009-001), and updated Map R-25 (Fluid Mineral Leasing) to recognize that crucial value year-long white-tailed prairie dog habitats shown on Map R-9 are areas open to leasing, subject to minor constraints (see LUP maintenance sheet G020-2009-002). The majority of these habitats were previously shown as areas open to leasing, subject to standard terms and conditions.

These changes have resulted in minor changes in oil and gas leasing management and the text of the ROD and RMP must be updated accordingly.
