

LUP AMENDMENT/MAINTENANCE SHEET

Office: Price Field Office

Plan Name: Price Field Office Record of Decision and Approved Resource Management Plan (2008)

Maintenance Change Number: G020-2011-001

Program: All programs that have stipulations included in Appendix R-3 (Stipulations for Surface Disturbing Activities).

LOCATION OF CHANGE

Page Number: Appendix R-3, pages 1 through 9

CHANGE

Replace: Appendix R-3 in its entirety with a revised Appendix R-3 as attached.

REASON(s)

On June 6, 2008, the State of Utah provided a letter to the Bureau of Land Management regarding air quality mitigation strategies (Appendix R-12 Record of Decision and Approved RMP). The State specifically identified the need to include interim nitrogen oxide control measures as a required condition of lease approval. The corresponding stipulations for internal combustion gas field engines are provided to add clarity to the RMP decisions for surface management activities.

The changes made were to correct typographical errors, spelling, and formatting throughout the stipulations appendix of the ROD/Approved RMP. Also, as identified in Washington Office Instruction Memorandum 2010-117, changes were to reword the language in the stipulations such that they are written in the affirmative voice and consistent throughout the planning areas with recently completed land use plans (2008) without changing the decisions or intent of the stipulations.
