Decision Number: ROD and Approved RMP

Page Number:_____

Column Number:_____

Line Number:_____

CHANGE

Delete: The attached list details typographical errors, spelling errors, spacing problems and other minor changes throughout the Price ROD/Approved RMP.

Insert:

REASON(s)

A number of format and editorial changes have been made that do not change the decisions or reasons: like spelling out acronyms the first time their appear; making page numbers consistent throughout the ROD; aligning text by indenting paragraphs or eliminating indented paragraphs to be consistent; correcting different font sizes; adding footers and headers that pages that were missing them; correcting inconsistence in heading style and/or font size; correcting spelling errors; adding comas where they were missing; making all table title consistent; correcting verb tense; ensured that all tables had numbers and were in the List of Tables

----------------------------	-----------------------	---------------------------------

Corrections to the Price ROD and Approved RMP

Table of Contents

Page ii, TOC; delete “Federal, State, and Local Management... This is a Table and not a Heading

Record of Decision

Page 1, Header; delete the second “Record of Decision” from all in ROD part of the Document.

Page 1, Para 1; use parenthesis instead of boxes around “DOI-BLM-2008”

Page 1, Bullets; they appear to be two different font sizes

Page 1, page number; the page number in the ROD is above the line and in the RMP the page number is below the line and “italicized”, make the two consistent

Page 5, para 1; PRMP/FEIS is not defined anywhere, spell out

Page 5, para 2; OHV is not previously defined spelled out, it is defined in the next paragraph

Page 6, Lands and Realty bullet; “Bow Knot” should be “Bowknot”

Page 6, Minerals bullet; after No Surface Occupancy add “(NSO)”

Page 23, 4th bullet; need to define NHL, this is the first time it appears “National Historic Landmark”

Page 24, two lines below bullets; these do not need to be indented

Page 25, para 1; need to define IBLA, this is the first time it appears “Interior Board of Land Appeals”

Page 26, para, 6th line; delete “areas” after wilderness characteristics

Page 27, Recreation Bullet; this para needs to be indented

Page 28, number 6; need to define NNL, this is the first time it appears, “National Natural Landmark”

Page 29, number 2; line up with number 1, do not indent

Page 34, para 3, change “approved RMP” to “Approved RMP”

Page 36, para 1, next to last sentence; add a coma between “transportation energy”

Page 38, para 3, change “creation” to “recreation”

Page 42 – 48; these three tables should have a table number and title and be added to the list of tables, only the second table shows up in the list of tables.

Page 52, sub headers; the headers “Implementation Monitoring and Effectiveness Monitoring” are different than those in Sections A, B, C. Remove the colon and insert a paragraph break

Page 56 add “Page intentionally left blank

Approved RMP

Page 57, para 1; italicize “Price River Management Framework Plan and San Rafael Resource Management Plan” to be consistent with pages 1, 2, and 5

Page 57, para 1; change “USDI” to “DOI” to be consistent with page 1

Page 58, Table R-3; change the Table Title to look like Table R-1

Page 60, last para; change “Approved Plan” to “Approved RMP”

Page 62; heading “The following estimated...” should be underlined to be consistent with the rest of this level of heading

Page 63, bullets; delete “Other” from “Other Special Designations”

Page 64, Goals and Objectives; these two sections should be bullets to match the rest of the RMP

Page 64 -153; most of the text in the RMP is aligned to the left where in the ROD the text is aligned both right and left. There are sections in the RMP where it is both aligned to the left and fully aligned. This should be just one way

Page 67, Headings; The headings of “Soils” and “Water and Riparian” are not easily identified and are different than the heading of “Protection of Water Quality...”. The later is a subset of “water and riparian”

Page 73, Objectives; the lines “Scientific Use”, “Public Use”, should be subbullets

Page 73; the last four paragraphs should be subbullets of “Areas for new field...”

Page 75, CUL-11; spell out “SOP”, first time use “Standard Operating Procedures

Page 85; remove page break between pages 85 and 86 to remove the blank space

Page 90, WHB-12; spell out AUM, first time used “animal unit month”

Page 91, Goals; spell out WUI, first time used “Wildland urban interface”

Page 92, FIRE-9; the last three bullets on page 92 and the first two on page 93 are all subbullets of “Potential to impact sensitive...” bullet

Page 105 and 116; the headings “Recreation” and “OHV” are of a different level than the rest used in the sections but there is no readily apparent differences in the headings

Page 105, REC-2; after “Extensive Recreation Management” add “Area”

Page 109, REC-29; change “plan was finalized” to “plan is finalized”

Page 114, REC-64; after “roaded natural” add “(RN)”

Page 126, Heading; change “Saleable” to “Salable” to match the rest of the texts usage of salable

Page 135, ACEC-3; starting will bullet “in addition,...” make the style look like ACEC-6

Page 135, ACEC-4; remove extra spaces before the first bullet

Page 135, ACEC-4, starting will bullet “in addition,...” make the style look like ACEC-6

Page 135, ACEC-5, starting will bullet “in addition,...” make the style look like ACEC-6

Page 138, ACEC-9; remove the extra spaces before “In addition,...”

Page 140, ACEC-10, remove the extra spaces before “In addition,...”

Page 142; the font size for “in addition, the following...” is different than the rest of the text, also remove extra space before this line.

Page 144, first bullet; this should not be a bullet.

Page 146, Title and Header; delete “Other”

Page 148, TRA-8; second bullet put a parenthesis after R-25

Page 154, Jeff Brower; put a coma between “Water HazMat”

Page 165, Mechanized Travel; remove shading from the end of the sentence

LUP AMENDMENT/MAINTENANCE SHEET

Office: Price Field Office

Plan Name: Price RMP

Maintenance Change No. : 2

Program: _____

LOCATION OF CHANGE

Decision Number: ROD

Page Number: 25

Column Number: _____

Line Number: 41

CHANGE

Delete: 1269 miles

Insert: 1276 miles

REASON(s)

The Approved RMP OHV miles include 670 miles from the San Rafael Route Designation Plan and 606 miles from this plan. The math was simple incorrect.

Maintenance Change No. : 3

Program: _____

LOCATION OF CHANGE

Decision Number: ROD

Page Number: 22

Column Number: _____

Line Number: 26

CHANGE

Delete: moderate

Insert: minor

REASON(s)

Map R-25 using minor constraints instead of moderate. Minor is the older terminology and moderate is the new version. This document and the Proposed RMP/Final EIS has consistently used "minor".

LOCATION OF CHANGE

Decision Number: Map R-26

Page Number: _____

Column Number: _____

Line Number: _____

CHANGE

Delete:

Insert: The map has been revised to accurately depict the EPCA impediments in the northeast part of the PFO

REASON(s)

The BLM granted a protest that the Fluid Mineral Leasing Map 2-34 in the Proposed RMP/Final EIS did not accurately map the ½ mile buffer around the greater sage-grouse leks. This change was made to Map R-25 of the ROD. However, this change was never made to the EPCA map (Map R-26).
