

Current Conditions: Presence or Absence of Wilderness Characteristics (Form 2)

Area Unique Identifier: UT-C010-161

Acreage: 12,573

(If the inventory area consists of subunits, list the acreage of each and evaluate each separately).

(1) Is the area of sufficient size? Yes No

Description (describe the boundaries of the area--wilderness inventory roads, property lines, etc

The initial inventory boundary was delineated through a GIS exercise based on roads, land ownership and Rights of Way. The road data were digitized by AGRC using ARC/Info from USGS 7.5 Minute quadrangle maps. Roads with codes (1-4, 1 Primary Route, 2 Secondary Route, 3 Primary Road and 4 Secondary Road) were used initially as wilderness inventory roads and field verified during the inventory process to determine if they met the FLPMA definition of a road. The north boundary is along the Bear shin Flat road and the Geothermal road. The eastern boundary is along state and private land and the Mineral Mountain Upper Bench road. The southern boundary is along the Shag Hollow road, state land and Ranch Canyon road. The western boundary is follows road L105485, FI 70000 and RT-085938.

(2) Does the area appear to be natural? Yes No N/A

Description (include land ownership, location, topography, vegetation, and summary of major human uses/activities

This unit is comprised of BLM land with a small private parcel in the interior. This unit is approximately 15 miles NW of Beaver Utah. The topography is flat to very steep. The vegetation is PJ dominated with scrub oak and mix of grasses including cheatgrass. The area does not have naturalness due to cumulative impact of developments, routes, leases for cabins, abandoned dozer, geothermal valves and pads/towers, in the unit.

(3) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for solitude?

Yes No N/A

(4) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for primitive and unconfined recreation? Yes No N/A
