Summary of Analysis*

Area Unique Identifier: UT-C010-194

Summary: *Clearly lacks wilderness characteristic*

Results of analysis: (Note: explain the inventory findings for the entirety of the inventory unit. When wilderness characteristics have been identified in an area that is smaller than the size of the total inventory unit, explain why certain portions of the inventory unit are not included within the lands with wilderness characteristics (e.g. the inventory found that certain parts lacked naturalness).

1. Does the area meet any of the size requirements? ☒ Yes ☐ No

2. Does the area appear to be natural? ☐ Yes ☒ No ☐ N/A

3. Does the area offer outstanding opportunities for solitude or a primitive and unconfined type of recreation? ☐ Yes ☐ No ☒ N/A

4. Does the area have supplemental values? ☐ Yes ☐ No ☒ N/A

Check one:

☐ The area, or a portion of the area, has wilderness characteristics and is identified as lands with wilderness characteristics.

☒ The area does not have wilderness characteristics.

* This form documents information that constitutes an inventory finding on wilderness characteristics. It does not represent a formal land use allocation or a final agency decision subject to administrative remedies under either 43 CFR parts 4 or 1610.5-3.

Current Conditions: Presence or Absence of Wilderness Characteristics (Form 2)

Area Unique Identifier: UT-C010-194 **Acreage**: 9,080

(If the inventory area consists of subunits, list the acreage of each and evaluate each separately).

(1) Is the area of sufficient size? ☒ Yes ☐ No

Description (describe the boundaries of the area--wilderness inventory roads, property lines, etc.)

The initial inventory boundary was delineated through a GIS exercise based on roads, land ownership and Rights of Way. The road data were digitized by AGRC using ARC/Info from USGS 7.5 Minute quadrangle maps. Roads with codes (1-4, 1 Primary Route, 2 Secondary Route, 3 Primary Road and 4 Secondary Road) were used initially as wilderness inventory roads and field verified during the inventory process to determine if they met the FLPMA definition of a road. The north boundary is Hwy 21. The east boundary is the South Wah Wah road. The Southern Boundary is road L105753. The west boundary is the Revenue Basin road.

(2) Does the area appear to be natural? ☐ Yes ☒ No ☐ N/A

Description (include land ownership, location, topography, vegetation, and summary of major human uses/activities

This unit is comprised of BLM land with a state section within it. The topography of this unit is flat. This unit does not have naturalness. It has primitive routes that cross the unit and fence lines that are very easy to see from a long distance due to the flat landscape. This unit clearly lacks wilderness characteristics.

(3) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for solitude?

☐ Yes ☐ No ☒ N/A

Description (describe the area's outstanding opportunities for solitude):

(4) Does the area (or the remainder of the area if a portion has been excluded due to unnaturalness and the remainder is of sufficient size) have outstanding opportunities for primitive and unconfined recreation? ☐ Yes ☐ No ☒ N/A

Description (describe the area's outstanding opportunities for primitive and unconfined recreation):

(5) Does the area have supplemental values (ecological, geological, or other features of scientific, educational, scenic or historical value)? ☐ Yes ☐ No ☒ N/A

FORM 1

Documentation of BLM Wilderness Characteristics Inventory Findings from Previous Inventory on Record

1. Is there existing BLM wilderness characteristics inventory information on all or part of this area?
No ☐ (Go to Form 2)
Yes ☒ (If yes, and if more than one area is within the area, list the unique identifiers for those areas.): UT-040-194 (1979)

a) Inventory Source: BLM Utah Initial Wilderness Inventory Proposal April 1979
b) Inventory Area Unique Identifier(s): UT-040-174 (1979) & UT-C010-194 (2014)
c) Map Name(s)/Number(s):
GisData\ut\cc\projects\Wilderness\Wilderness_Review\layers_final\MasterInventoryUnits_Final.gdb (Updated 2014 Inventory) & Wilderness Inventory State of Utah, US Government Printing Office 1979 678-663
d) BLM District(s)/Field Office(s): Cedar City

2. BLM Inventory Findings on Record:
Existing inventory information regarding wilderness characteristics (if more than one BLM inventory area is associated with the area, list each area and answer each question individually for each inventory area):
Inventory Source: BLM Utah Initial Wilderness Inventory Proposal April 1979

Area Unique Identifier	Sufficient Size? Yes/No (acres)	Naturalness? Yes/No	Outstanding Solitude? Yes/No	Outstanding Primitive & Unconfined Recreation? Yes/No	Supplemental Values? Yes/No
