Emery Deep Mine Access Right-of-Way

---

This unsigned Finding of No Significant Impact (FONSI) and the attached Environmental Assessment (EA) (DOI-BLM-UT-G020-2018-0051-EA) for the Emery Deep Mine Access Right-of-Way are available for public review and comment for 30 days beginning on December 10, 2018.

Based on the analysis of potential environmental impacts in the attached EA and consideration of the significance criteria in 40 CFR 1508.27, I have determined that the proposed action alternative would not result in significant impacts on the human environment. An environmental impact statement (EIS) is not required.

The decision to approve or deny the proposed action, and if appropriate, a signed FONSI with rationale, will be released after consideration of public comments and completion of the EA.
