Comment Title: Climate Change

Your excellent summary on climate change indicates that it is being driven by the increase of Greenhouse Gases largely from the fossil fuels that this lease-sale would authorize to be removed from the earth and burned. Unless and Comment: until a way to remove these Greenhouse gases from the atmosphere, it just make sense to stop removing them. Please do not lease this land, part of our public trust, for the purpose of drilling and mining that will only harm the public.
