

### Proposed Action - Extent I with Master Title Plat Overlay

- Proposed Action Gen-Tie
- 12-foot temporary access road
- Proposed Action Tie-Line options
- 12-foot temporary access road
- Temporary construction workspace
- Wire Set-up site
- Angle point
- Existing substation
- Existing 345 kV transmission line
- 100 ft contour lines (on topo)
- Township and range
- Section
- Area of display
- Geothermal lease area
- Surface Ownership
- Bureau of Land Management
- Private (includes county and city)

The temporary construction space displayed on the figure does not represent the proposed location but only a representation of a potential temporary construction space. The displayed disturbance could occur anywhere within the 200 foot ROW and would be defined during in-field staking to avoid ephemeral streams, archaeological sites and other identified resources.
