FEB 1 2012

Dear Reader:

The Bureau of Land Management (BLM) Carson City District, Stillwater Field Office has issued the Decision Record for the Final Environmental Assessment (EA) for the Nye County Water Well and Pipeline Project, DOI-BLM-NV-C010-2012-0032-EA. The decision is for the BLM to implement the Proposed Action Alternative to issue a right-of-way grant to Nye County Public Works for the construction, maintenance, and termination of a water production well and ancillary facilities and an underground water distribution pipeline and above ground existing access road in Nye County, Nevada. The public land encumbered by this right-of-way action is 1.92 acres. The right-of-way will include a well house building with fencing and radio telemetry, a power line tie-in, and an underground boring to cross under the state highway.

The water well and pipeline are described and analyzed in the Final EA. A determination has been made that implementation of the Proposed Action would not result in "significant environmental impacts," therefore a Finding of No Significant Impact has been prepared separately to document that determination, and a Decision Record has been issued providing the rationale for approving the Proposed Action Alternative.

If you have any questions on this matter, please contact Erik Pignata, Realty Specialist, at: (775) 885-6110.

Sincerely,

Teresa J. Knutson
Field Manager
Stillwater Field Office
