OCT 17 2016

Dear Interested Parties:

The Bureau of Land Management, Battle Mountain District, Mount Lewis Field Office, Final Environmental Impact Statement (FEIS) for the 3 Bars Ecosystem and Landscape Restoration Project, located in Eureka County, Nevada, will be available online beginning Friday, October 21, 2016 at the following website: <http://bit.ly/2eAI2Ut>

The 3 Bars Ecosystem in central Eureka County, Nevada spans approximately 725,000 acres and includes portions of three major mountain ranges (Roberts Mountain, Simpson Park Range, and Sulphur Spring Range). The 3 Bars Ecosystem and Landscape Restoration Project FEIS focuses on restoration at the landscape level. It will address landscape protection priorities identified in the Healthy Lands Initiative of 2007 (maintaining sagebrush steppe habitat and strategically restoring fragmented habitat for at-risk wildlife species), and other resource management goals. The proposed treatments would range from several acres to several thousand acres, depending on specific treatment and management goals and desired outcomes for each resource area.

For questions about the FEIS or to receive a compact disc (CD) or print copy contact the BLM at the phone number or address above, or by email at BLM_NV_BMDO3bars_project@blm.gov

Hard copies/CDs will be available beginning on Friday October 21, 2016.

Sincerely,

Jon D. Sherve
Field Manager
Mount Lewis Field Office
