Subject: Statement in support of the Pan Project
To: "BLM_NV_EYDO_Midway_Pan_EIS@BLM.gov"
<BLM_NV_EYDO_Midway_Pan_EIS@blm.gov>

Dear Sir or Ma'am,

I am writing in support of Midway Gold's Pan Project near Eureka. I work for a regional mining contractor based in Tucson but having local facilities and employees across Nevada. With the economy being what it is, we need all the jobs we can produce in this country. A new operation coming online in Nevada will provide opportunities not only locally but across the US. The mine in NV will need local employees; they will need equipment built in our shop in Tucson; our shop will buy parts from somewhere else; and eventually a factory somewhere needs raw materials from the mines to make whatever it is they are selling to consumers. I strongly support American jobs, please approve the Pan Project.

COMMENT (use back side if you need additional space or attach additional sheets)

I was involved with the closure design of the north waste rock dump in early stages of the project. Based on my experience with the project, the alternative dump location would be preferable and reduce visual impact. As an engineer in a local design firm, this project could potentially allow us to increase our local workload and get involved in the design. This would help us hire another engineer in our Elko office.

COMMENT (use back side if you need additional space or attach additional sheets)

After reviewing the PAN mine EIS, this project appears to have more benefit to the area/region than negative impact. I agree with all the proposed layouts & mitigation measures except one. The waste rock disposal site design alternative appears to have benefits including less visibility. I would recommend the alternative. This project should help to bring jobs & revenues to a region of Nevada that really need it.

COMMENT (use back side if you need additional space or attach additional sheets)

Welcome Midway - It is so nice to see a company that cares about the entire communities - , public, impact, and the care of the land involved - As a business owner, I've see the ups and downs of Ely over the past 30 years - I believe its Ely's turn to grow, and not just barely survive -

RE: Comment on Midway Gold Corporation's Pan Project EIS

Dear Mr. Kreidler

I have been in the area of the Pan Gold Deposits numerous times over many years because I am a Nevada based gold exploration geologist and spend much time on the land. I have been aware of the many stages of development and permitting that Midway Gold Corporation's development of these deposits. I consider the efforts of Midway to move towards production as a good thing and the accompanying EIS as mostly a thoughtful and well prepared document. As evidenced by the EIS document Midway is on track to protect the environment while creating new wealth that will help fund taxes and jobs.

Concerning the EIS, I support the BLM's modified waste rock design, also I support the shortest proposed route for the power line to the project. Concerning the notion that there are a declining number of sage grouse, I feel there is no valid scientific evidence at this time to quantify such a decline. It is also my observation that wild horses are a destructive invasive species that have had and continue to have huge negative impacts on the native flora and fauna; I have observed much degradation on Nevada's riparian habitat and the sensitive natural feed caused by horses and it is unfortunate that they are given any protection at all in this EIS.

Thank you for your consideration,

A handwritten signature in cursive script that reads "Lindsay".

Re: Midway Pan Mine

I am the Founder and President of General Dental Products, Inc., as well as a former White Pine County Regional Planning Commissioner (8 years). I have been a City of Ely Planning Commissioner for three years.

I take a deep interest in all types of projects, business development, and civic projects that improve financial and social conditions in Ely.

The Midway Gold Company, through its' many presentations and answer sessions in Ely and Eureka, has demonstrated the merits of their Pan Mine project. The creation of 150 jobs, plus another 300 jobs for other projects, is good news for our entire area (Ely, Eureka, and Lund). The tax revenue for White Pine County is badly needed, and the local Ely economy will greatly benefit. Midways' reclamation plan, ongoing even while the mine is operating, is exemplary.

I have spoken many times to Mr. Roger Gross about the Pan Mine project. He is an expert in reclamation, and he was able to answer all of my questions. I have no reservations about the Pan Mine project. I support it wholeheartedly.

Sincerely,

Jed A. Peeler
President

COMMENT (use back side if you need additional space or attach additional sheets)

I AM IN FAVOR OF THE MIDWAY GOLD PAN PROJECT. WHITE PINE COUNTY RELIES ON BUSINESS VENTURES SUCH AS THIS TO SUSTAIN ITSELF. RESIDENTS HAVE BEEN ACCUSTOM TO THIS TYPE OF INDUSTRY FOR OVER 100 YEARS, WELCOMING THE BENEFITS THAT DEFINITELY OUT WAY ANY IMPACTS.

MIDWAY GOLD'S EFFORTS TOWARD MITIGATING FOR THE GREATER SAGE GROUSE SHOULD BE COMMENDED. THE MEASURES THAT THEY ARE TAKING CAN BE UTILIZED AS A TEMPLATE FOR FUTURE PROJECTS

COMMENT (use back side if you need additional space or attach additional sheets)

I would like to support the granting of the needed permits and the approval of the final EIS for Midway Gold's Pan Mine Project. In attending some of the local informational hearings held by the Midway Company, I believe their project will be far more beneficial than any possible negative to our community, county, and state. Their proposed mitigations, I believe are reasonable. The City of Ely has been decreasing in population and services for years. The possibility of a new employer and one that will contribute to the existing tax base is greatly needed. The project will create new jobs and opportunities for our communities

COMMENT (use back side if you need additional space or attach additional sheets)

I wish to offer thoughts in support of the Midway Gold-Pan Mine. While mining in general is disruptive to the scenery, landscape & habitat, it is crucial to our collective economic future. I have followed the development of the Pan Mine for over a year. I have concluded that the location is relatively low risk, and that Midway is acting in a conscientious & responsible manner & is committed to minimizing the negative aspects of their mining activity.

May 6, 2013
Ely, Nevada

To Whom it may concern:

This letter is written in support of Midway Gold's Pan Mine project. It is obvious to the most casual observer how important such a project is to a town the size of Ely. 150 mining jobs, along with the "support" jobs that will necessarily follow, represents a very significant economic boost to a town of 4000. However, the environmental impact cannot be ignored. I want to put that concern into perspective.

Nevada has a land area of more than 70 million acres. The vast majority of that area is under the diligent stewardship of Federal agencies, and that should be a consolation to anyone concerned with the environment and its wildlife. The Pan Mine is projected to have a total disturbance area of 3200 acres, the largest majority of that which will be reclaimed. If you would, please indulge me in the following analogy: Consider this sheet of paper to represent the land area of the State of Nevada. The total disturbance area of the Pan Mine would be hardly larger than the period at the end of this sentence. Yes, "." is fairly accurate. After reclamation, the land area impacted will not be detectable on this paper. To me, that is an acceptable price to pay for the livelihood of so many people for so many years. Just drive from Ely to Eureka, through the area where this mine will be. The vastness is striking now, and I am certain will remain so throughout the life of this mine.

This land is truly a place that can accommodate industry and wildlife alike. I urge the decision-makers to let this project proceed.

Thank you for your consideration.

Sincerely,

Marty Westland, Ely City Councilman

Subject: Pan Project Comment
To: [BLM NV EYDO Midway Pan EIS@blm.gov](mailto:BLM_NV_EYDO_Midway_Pan_EIS@blm.gov)

To Whom It May Concern,

I am commenting as an employee of Midway Gold, a member of the board of trustees for the Northwest Mining Association, and an individual who is a strong supporter of both the environment and the economy in rural Nevada.

It is well known that the development of hard rock minerals creates new wealth, which is distributed throughout the Nevada and US economies and benefits all levels of our societies. With unemployment in Nevada at 9.7% (<http://www.bls.gov/eag/eag.nv.htm>), the direct and indirect economic benefits of developing a mine are clear. Local jobs will be added and payroll, property, sales, and net proceed taxes will be paid.

I am a strong supporter of the Pan project!

Thanks,

Adam

HC 33, box 33500
Ely, NV 89301

RE: Duckwater Shoshone Tribe comments on the Pan Mine Project Draft Environmental Impact Statement (Case file NVN-090444)

Dear Mr. Kreidler:

The Duckwater Shoshone Tribal Council met with Midway Gold yesterday at their regular Council meeting to discuss the letter that the Tribe submitted under Chairman Virginia Sanchez's signature dated May 10, 2013, regarding the above reference. The Tribe also submitted a letter dated May 14, 2013, under the signature of Maurice Frank-Churchill, the Tribe's Assistant to Division Managers and our cultural resource person.

After review of both letters and discussion among the Council, the Council took official action to withdraw the first letter signed by Chairman Virginia Sanchez in its entirety. They understand that Maurice's letter is very site specific and addresses the issues that Duckwater is most concerned about.

Please understand that Virginia Sanchez was not left out of the loop but was not able to attend the meeting due to health issues. She is fully aware of the issues raised by Midway Gold and took full responsibility for signing the letter without more thorough examination.

Please remove this letter from the Environmental Impact Statement response and utilize only the letter from Duckwater signed by Maurice Frank-Churchill.

If you should have any questions, please do not hesitate to contact our Tribal Manager, Patricia (Pat) Knight at the phone number listed above.

Sincerely,

A handwritten signature in black ink that reads "Alissa Thompson". The signature is fluid and cursive.

Alissa Thompson
Vice Chairman

COMMENT (use back side if you need additional space or attach additional sheets)

The minor environmental impact coupled with the positive economic impact compels me to view this project favorably. The company Midway, the suppliers, the residents of White Pine and Eureka Counties, all of us residents of the great State of Nevada would benefit if the Pan Mine becomes a reality.
 - Jim Leavitt

COMMENT (use back side if you need additional space or attach additional sheets)

I am writing to comment on the proposed Midway Gold Pan Mine. As a local business owner and attorney, we are deeply committed to our community and the success of our neighbors. Midway Gold has already played a valuable role in our community by contributing to local charities, supporting the schools, and maintaining an active presence in many organizations. If approved, the Pan Mine will bring needed jobs and revenue to the community. These benefits greatly outweigh

COMMENT (use back side if you need additional space or attach additional sheets)

I strongly support the Pan Project. The potential employment and economic benefits to the local economy and state, ~~are~~ make this project vital to the area. Mining jobs are usually "family-wage" jobs - allowing one wage earner to support a family, and those types of jobs are good for families as well as communities. I support the alternative waste rock disposal site in the DEIS, so that potential impacts to sage grouse habitat are minimized. Regarding sage grouse management, I urge your agency to mitigate appropriately - based on proven research and common sense principles so that the sagebrush

COMMENT (use back side if you need additional space or attach additional sheets)

I wish to ~~say~~ express my support for the project because I believe it provides a significant economic benefit with minimal impact. I also wish to state emphatically that choosing the alternative access road route would be a serious mistake bound to result in serious injury.

The alternative road & powerline route would present an enormous safety hazard. The route would add 1.5-2 hours round-trip on a road that will see significant heavy vehicle traffic. The additional time commuting is bound to result in a serious accident due to sleep deprivation. The longer commute would mean less time for mine employees to spend with their families & the first item people will eliminate as a

Comment continued: result is sleep. Even if vans or buses are provided to transport personnel to/from the mine, the quantity & quality of sleep will suffer. There is a cumulative effect to sleep deprivation making everyone less safe whether driving to/from work, around town, or performing tasks at home. The resulting sleep deprivation will make driving in the Ely/Tonka areas more hazardous in general.

I speak from personal experience, because my brother suffered a traumatic brain injury in an accident resulting from sleep deprivation. The injury renders him incapable of living on his own. He will live with my parents until they can no longer care for him. In addition a friend of his was killed and another had his arm severed at the shoulder. I implore that the alternative route not be chosen because I hate to think of the predictable devastation every family is being set up for should it be implemented.

COMMENT (use back side if you need additional space or attach additional sheets)

I am for the "waste rock disposal site design alternative".

It makes no sense to have to run the powerline along the 32 mile route.

This project brings with it 150 great paying jobs to an area that needs them!
