To Whom It May Concern,

I think demolishing Merger/American Flat Mill is a mistake and destroys our history here in Northern Nevada. I for one have visited the Mill since childhood and now take my children there, although now it is fenced off. The simple history of the place and remote location, the fact that it has been used in movies and even the artful graffiti make it a place like no other. It makes our area special. I was born and raised in Carson City. I was the second baby born in the new hospital after the old one burned down, which is now the old hospital. My Grandfather owned Odom construction which built a lot of the houses which still stand today. I have a lot of history in Carson City, but so much has changed, I dont want to see us lose any more history.

Thank you,

Kristina Gonzales

Carson City Native.
