OCT 31 2012

Dear Reader:

The Bureau of Land Management (BLM), Carson City District, Stillwater Field Office, has completed an environmental assessment (EA) for the Summit Spring Reconstruction Project, EA # DOI-BLM-NV-C010-2013-0006-EA. The EA will be available for a 30-day public review comment period. The BLM is accepting written comments on the EA until November 29, 2012. A copy of this EA is available in the BLM Carson City District office and webpage at:

[http://www.blm.gov/nv/st/en/fo/carson\\_city\\_field/blm\\_information/nepa.html](http://www.blm.gov/nv/st/en/fo/carson_city_field/blm_information/nepa.html).

The BLM proposes to replace an existing four (4) strand barbed wire fence with a 3 strand cable and pipe fence. The spring head box, pipeline and water trough would be replaced and re-designed to allow for an effective water supply system. The water trough would be moved closer to the spring box and farther away from the road allowing the wild horses a larger escape route if startled by traffic.

Public comments submitted for this proposed project, including names and addresses of those who commented will be available for public review at the BLM Carson City District office during regular business hours from 7:30 a.m. to 4:30 p.m., Monday through Friday, except federal holidays. Before including your address, phone number, e-mail address, or other personal information in your comment, please be aware that your comment-including your personal information- may be publicly available. While you may request that your personal identifying information be withheld from public review, The BLM cannot guarantee that we will be able to do so. After the public review period has ended, comments will be analyzed and considered part of the decision-making process.

Written comments should be sent to: Chelsy Simerson, Rangeland Management Specialist, Stillwater Field Office, 5665 Morgan Mill Road, Carson City, NV 89701. If you have any questions, please contact Chelsy Simerson at (775) 885-6000. A hardcopy can be provided upon request.

Sincerely,

Teresa J. Knutson  
Manager,  
Stillwater Field Office
