NV010.40

SPECIAL RECREATION PERMIT STIPULATIONS OHV RACES

- 1. This permit is issued for the period specified herein. It is revocable for any breach of conditions hereof or at the discretion of authorized officer of the Bureau of Land Management, at any time upon notice. This permit is subjected to valid adverse claims heretofore or hereafter acquired.
- 2. This permit is subject to all applicable provisions of the regulations (43 CFR Group 2930) which are made a part hereof.
- 3. This permit is subject to the provisions of Executive Order no. 11246 of September 24, 1965 as amended, and which sets forth the Equal Opportunity clauses. A copy of this order may be obtained from the signing officer.
- 4. This permit may not be reassigned or transferred by permittee.
- 5. Permittee **shall** pay the sum of estimated user fees in advance of permit issuance. Adjustments to use fee charges will based on actual use reported on the Post Use Report.
- 6. Permittee **shall** observe all Federal, State, and local laws and regulations applicable to the premises; to erection or maintenance of signs or advertising displays including the regulations for the protection of game birds and animals, and shall keep the premises in a neat orderly manner and sanitary condition.
- 7. Permittee **shall** take all reasonable precautions to prevent and suppress forest, brush, and grass fires, and to prevent polluting of waters on or in vicinity of the public lands.

- 8. Permittee **shall** not enclose roads or trails commonly in public use.
- 9. Permittee **shall** pay the United States for any damage to its property resulting from this use.
- 10. Permittee **shall** notify the authorized officer of an address change in a timely manner.
- 11. Permittee **shall** not cut any timber on public lands without prior written permission from the authorized officer.
- 12. Permittee **shall** indemnify, defend, and hold harmless the United States and / or its agencies and representatives against and from any and all demands, claims, or liabilities of every nature whatsoever including but not limited to damages to property, injuries to or death of persons arising directly, indirectly or in any way connected with the permittee's use and occupancy of the public lands described in this permit or with the event authorized under this permit.
- 13. Authorized representatives of the Department of the Interior, other Federal agencies and game wardens must at all times have the right to enter the event on official business.
- 14. Permittee **shall** abide by all special stipulations attached hereto.
- 15. Permittee **shall** not disturb areas of archeological and historical value, including but not limited to petroglyphs, ruins, historic buildings, and artifacts.
- 16. Permittee **shall** leave in place any hidden cultural values uncovered through authorized operations.

Issuance of Permit

- 17. This SRP only authorizes the use in the area as specifically described herein.
- 18. The permittee shall comply with all Federal, State, and local laws; ordinances; regulations; orders, postings; or written requirements applicable to the area or operations covered by the *Special Recreation Permit* (SRP). The permittee shall ensure that all persons operating under the authorization have obtained all required Federal, State, and local licenses or registrations. The permittee shall make every reasonable effort to ensure compliance with these requirements by all agents of the permittee and by all clients, customers, participants, or spectators under the permittee's supervision.
- 19. An SRP represents a nonexclusive privilege authorizing special uses of the public lands and related water. Should circumstances warrant, the permit may be modified by the BLM at any time. The authorized officer may suspend or terminate a SRP if necessary to protect public resources, health, safety, the environment or because of noncompliance

with permit stipulations. Actions by the BLM to suspend or terminate a SRP are appealable.

- 20. No value shall be assigned to or claimed for the permit, for the occupancy or use of Federal lands or related waters granted thereupon. The permit privileges are not to be considered property on which the permittee shall be entitled to earn or receive any return, income, price or compensation. The use of a permit as collateral is not recognized by the BLM.
- 21. Unless expressly stated, the SRP does not create an exclusive right of use of an area by the permittee. The permittee shall not interfere with other valid uses of the Federal land by other users. The United States reserves the right to use any part of the area for any purpose.
- 22. The permittee may not assign, contract, or sublease any portion of the permit authorization or interest therein, directly or indirectly, voluntarily or involuntarily. However, contracting of equipment or services may be approved by the authorized officer in advance if necessary to supplement a permittee's operations. Such contracting should not constitute more than half the required equipment or services for any one trip and the permittee must retain operational control of the permitted activity. If equipment or services are contracted, the permittee shall continue to be responsible for compliance with all stipulations and conditions of the permit.
- 23. All advertising and representations made to the public and to the authorized officer must be accurate. Although the addresses and telephone numbers of the BLM may be included in advertising materials, official agency symbols may not be used. The permittee shall not use advertising that attempts to portray or represent the activities as being conducted by the BLM. **The permittee may not portray or represent the permit fee as a special Federal user's tax.** The permittee must furnish the authorized officer with any current brochure and price list if requested by the authorized officer.
- 24. The permittee must assume responsibility for inspecting the permitted area for any existing or new hazardous conditions, e.g., trail and route conditions, landslides, avalanches, rocks, changing water or weather conditions, falling limbs or trees, submerged objects, hazardous wildlife, or other hazards that present risks for which the permittee assumes responsibility.
- 25. In the event of default on any mortgage or other indebtedness, such as bankruptcy, creditors, shall not succeed to the operating rights or privileges of the permittee's SRP.
- 26. Unless specifically authorized, an SRP does not authorize the permittee to erect, construct, or place any building, structure, or other fixture on the public lands. Upon leaving, the lands must be restored as nearly as possible to pre-existing conditions.
- 27. The permittee must present or display a copy of the SRP an authorized officer's representative, or law enforcement personnel upon request. If required, the permittee

must display a copy of the permit or other identification tag on equipment used during the period of authorized use.

- 28. The authorized officer or other duly authorized representative of the BLM may examine any of the records or other documents related to the permit, the permittee or permittee's operator, employee, or agent for up to 3 years after expiration of the permit.
- 29. The permittee must submit a Post Use Report to the authorized officer for every year the permit is in effect. If the post use report is not received by the established deadline, the permit will be suspended and/or fines assessed.

Permit Fees

- 30. Payment due to the government shall be in conformance with existing regulations. Briefly: A Competitive SRP requires the minimum annual non-refundable \$100 fee plus 3% of gross income or \$5 per person per day in excess of the minimum payment;

Post Use

- 31. The permittee shall complete the post-event portion of the permit and return it to the Field Office issuing the permit within 30 calendar days (or date assigned) of the completion of the event.

Safety and Hazard Mitigation

- 32. The permittee shall immediately notify the Authorized Officer of any serious injuries or fatalities which occur in connection with the event. A written incident report will be submitted with the completed post-event portion of the permit. The *Authorized Officer* will provide permittee BLM's incident report form (DI-134) which details all necessary information to be furnished for any serious injuries or accidents.
- 33. The permittee will be responsible for public safety in the event area. The permittee is required to post warning signs, at all known mine shafts and other hazardous areas which occur within 100 feet of the race course or pit/spectator area and will verbally inform race participants of all hazards at the pre-race meeting.
- 34. The permittee shall prepare a written operations plan for BLM review and approval detailing permittees' plans for providing emergency services including aid to injured participants, evacuation of injured participants and the types and location of rescue equipment to be provided. This plan shall comply with the applicable medical stipulations and shall ensure that emergency aid personnel can access the scene of any accident or injury, at any location within the approved event area or on the course route, within 30 minutes of notification of an incident to evaluate the situation and begin to render aid.

- ❑ 35. In order to provide a safe access route for the ambulances, fire engines and law enforcement vehicles - in the event of a medical emergency, wild land fire and/or other emergency on the course, the permittee shall suspend or stop the event until given permission by the BLM authorized officer to resume

Medical Attention

- ❑ 36. Permittee shall insure the provision of Emergency Medical Services, capable of locating, rendering aid to and evacuating any accident victims. The types of emergency medical equipment shall comply with the list provided in the stipulation below.

Permittee shall insure that first aid services provided at this event have the capability to insure that any accident victim may be located, treated, and evacuated as needed. A reliable communication system shall be provided sufficient to provide immediate contact for the first aid provider (EMT) to local emergency dispatch centers.

First aid services shall include at least one person currently certified as an Emergency Medical Technician Basic (or higher) and one person qualified at a minimum as a first responder. They shall be equipped with sufficient supplies for emergencies:

1. Transportation – Capabilities for emergency transport (See paragraph below)
2. Spinal Immobilization – Backboard, straps, cervical collars. A KED would be required for four wheel drive events.
3. Muscular/skeletal injuries – Traction splint, immobilization supplies for other sprains, strains, breaks and dislocations.
4. Airway Maintenance – Oxygen
5. Cardiac Emergencies – AED, oral and nasal airways
6. Trauma – Ability to treat major trauma emergency
7. Telecommunications – (See paragraph below)
8. Sudden Illness – Ability to treat diabetic, allergic reactions and other emergency situations.
9. Triage - Ability to provide triage for multiple patients
10. Environmental Emergencies – Heat (shade, oral fluids, cold packs), Cold (blankets, place to warm up)

A dedicated and reliable communication system shall be provided sufficient to provide immediate contact for the first aid provider (EMT) to local emergency dispatch centers. **For NON-MOTORIZED events with over 150 participants**, a minimum of one additional (EMT) per 150 participants (entrants and spectators)

Use of a public entity is permitted where no suitable private services capable of being “event dedicated” are available or located within 100 miles of the main event site. This unit shall only be acceptable if staffed and equipped to the local standards as prescribed by the authority having jurisdiction. A dedicated and reliable means for the first aid provider to immediately contact emergency dispatch centers if needed shall be required. Dedicated 4X4 units equipped for rendering aid, evacuating any accident victim and

staffed by an Emergency Medical Technician Basic (or higher) equipped with sufficient supplies for emergencies, including locally approved equipment for the immobilization of the cervical spine. ATV's or UTV's may be used in place of the 4X4 units on Motorcycle, and ATV races provided they are staffed, by and equipped to the same standards as the 4X4 units. For truck and buggy races - a means of suppression of a fire in the incipient stage, and for the extrication of victims from within a motor vehicle must be provided, and remain dedicated to the event. This includes the provision of a hydraulically operated gas or electric powered tool system for the cutting and spreading operations related to victim extrication from vehicles. A dedicated and reliable means for the first aid provider to immediately contact emergency dispatch centers shall be required

Fuel and Fluids Management

- 37. The permittee is responsible for clean-up and assumes liability for any and all releases of hazardous substances and or oil (more than one quart) disposed on public land as defined in the National Oil and Hazardous Substances Contingency Plan (40 CFR 300). Permittee will immediately notify the BLM Authorized Officer of any and all releases of hazardous substances and or oil (more than one quart) on public land.
- 38. The permittee is required to inform all persons associated with the SRP directly or indirectly of this stipulation requirement:
 - ALL VEHICLES - A method of controlling and capturing fuel spilled during fueling must be placed under all dump cans and under each vehicle during fueling operations. Commercially available absorbent products are available but a piece of scrap carpet is acceptable as long as the carpet absorbs the fuels and doesn't simply allow the fuels to run off or drain through.
 - ALL PITS WITH 50 OR MORE GALLONS OF FUEL - All pits that have 50 or more gallons of fuel available, whether in drums or dump cans, must provide for fuel containment. At a minimum this requires - 1) an impermeable membrane with raised edges capable of containing all fuels on site should the containment vessel fail and 2) absorbent materials (commercially produced spill pads, diapers) available to soak up spilled fuels. This does not apply to fuels located within fuel trucks or fuel drums not in use stored in trucks or trailers.
 - FLUIDS (oil, transmission, etc.) - During vehicle maintenance and repairs all fluids must be contained in spill proof containers. Drop cloths and absorbent pads shall be used under vehicles when changing fluids or repairing engines and transmissions where fluids may be released.

Environmental Stipulations

- 39. The permittee shall inform the participants to yield to any horses or burros on or near the racecourse. The permittee shall clear the course before each run to ensure that no horses or burros have wandered onto the racecourse. In the event of a wild horse or

burro collision with a racer, the race organizer will notify BLM personnel and/or BLM Wild Horse and Burrow Specialist immediately with the given details and exact location of the collision. If a foaling mare/jenny or newborn foal is encountered, every effort should be made to detour the race course away from that location. Race courses/routes will not be allowed in House Management Areas during foaling season (March 1 to June 30th)

- ❑ 40. The permittee shall do everything possible to insure that event participants and spectators do not harass or collect wildlife, plants, livestock or archaeological features or artifacts. The event will avoid stock watering tanks, springs, wells, wildlife improvements, corrals, etc., by no less than one-quarter mile unless otherwise approved by the BLM authorizing officer. The event may not utilize, other than on designated roads passing through, for any activities, any burned area(s) which is/are recovering from the impacts of wildfire.
- ❑ 41. Pursuant 43 CFR 10.4(g) the holder of this authorization must notify the authorized officer, by telephone, with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony. Further, pursuant to 43 CFR 10.4(c) and (d), you must stop activities in the immediate vicinity of the discovery and protect it from your activities for 30 days or until notified to proceed by the authorized officer.

Racecourse Stipulations

- ❑ 42. Permittee shall monitor the race events to prevent damage from course cutting and participants traveling off course. The permittee shall establish racecourse checkpoints to prevent short coursing. Any participant caught short coursing or passing in no passing areas will be disqualified by race officials. The permittee will be responsible for keeping contestants on the designated route/course. Participants who violate any of the mitigation measures or stipulations shall be disqualified from the race. Additionally, any support personnel found in violation of the stipulations, associated with a participant shall result in the disqualification of that participant.
- ❑ 43. The event shall be confined entirely to a clearly defined and plainly marked area/route as shown on the authorized use area maps. Racecourses shall consist of existing roads, washes, old courses and trails. For lineal events, passing shall be limited to the disturbed areas of these roads, washes, old courses and trails. Passing is not permitted in vegetated areas adjacent to the course. The maximum allowable width of courses shall be no greater than the existing disturbance (road, old course or trails).
- ❑ 44. Permittee is responsible for stationing monitors and/or post signs at road intersections where the general public is likely to access or cross the race course. It will be left to the monitor's discretion as to the best course of action regarding the immediate safety of the race participants and public land users, but at no time is the race proponent to communicate in anyway the idea or notion that any portion of the route is closed to the public.

- 45. The requested use area, course route and/or spectator/pit area(s) shall be marked sufficiently to allow BLM personnel to easily determine the location, size and extent of the requested use area. The use area(s), race course(s) and spectator/pit area(s) shall be confined entirely to the designated areas as approved by BLM. Spectator area/pit boundaries shall be clearly marked and monitored to the extent necessary to restrict spectators, pit crews and others to the confines of the designated areas. All event staff must stay in areas assigned. The permittee will be responsible for marking the use area, racecourse and boundaries of spectator parking and pit areas to the satisfaction of the authorized officer. The permittee will not mark the course by painting rocks or plants or other land features.
- 46 **The permittee will allow the public to utilize the roads when it is safe to do so.**
- 47. Pre-event use of the event site or pre-running of race courses may not be allowed.
- 48. Reconnaissance rides are limited to 45 mph. Any participant exceeding the speed limit will get a time penalty and/or will be disqualified from the race.
- 49. The use of the designated event site or race route on BLM land is permitted, **but the right to use county, state or federal roads crossing BLM lands is neither granted, nor implied, by the issuance of this permit.** If any portion of the race is conducted on or across a County or BLM system road, or on any portion of its template, including the cut and fill slopes, the road shall be rehabilitated to a condition matching or exceeding its status prior to the event.
- 50. This permit does not give permission to cross over or use any private lands during the event. The permittee will be fully responsible for all trespass on and/or damages to private land which result from the conduct of the event. **Permittee shall provide written certification to BLM that contacts with all private land owners have been made to the best of permittee's knowledge. Permittee shall obtain permission to cross private lands in writing prior to the event and provide copies to the Authorized Officer.** This, however, does not apply where the permittee has permission, from the appropriate State or County agency, to use State or County roads and rights-of-way which cross private lands.

Spectator Areas

- 51. The permittee shall contain and monitor the spectator areas to ensure the safety of the spectators and the race participants. Spectator area/pit boundaries shall be clearly marked and monitored to the extent necessary to restrict spectators, pit crews and others to the confines of the designated areas. No pit riding allowed.

Sanitation

- ❑ 52. Permittee shall provide a minimum of two (2) restrooms at every start/finish (S/F) area, pit location and/or spectator area on public lands which will be occupied for more than four (4) hours; and additional units if: 1) the S/F, pit, or spectator areas are split by the course route or a physical barrier, two restrooms shall be provided on either side; or if 2) the S/F, pit or spectator area is in excess of 1/4 mile (1,320 feet) in length, two restrooms shall be provided at both ends. Restrooms may be provided through rental of units, use of self-contained trailers or motor homes or any other means providing access to the general public in S/F and spectator areas and all crews in pit areas. If restrooms other than rental units are used, adequate signage must be provided to make their presence known. All refuse must be removed from the event area and deposited in an approved treatment facility or landfill. Exceptions to this stipulation include; 1) check points manned by only a few personnel; 2) S/F, pit or spectator areas adjacent to hotel or casino properties offering restroom facilities; 3) events where there are no specified S/F, pit or spectator areas (i.e. Tour and Trail rides); and 4) pit areas for point-to-point events where pit crews stay only long enough to service their vehicle then move on to the next point (S/F and spectator areas for these type events still require restrooms if used in excess of four (4) hours). **All restroom facilities must be removed from area within 24 hours after the event.**

- ❑ 53. At the discretion of the Authorized Officer, BLM Law Enforcement, or local law enforcement may cancel the event due to improper procedures for road crossings, actions placing the public in harm's way, or race related conditions (dust over the roads and highways).

Post Activity Stipulations

- ❑ 54. The permittee shall make every effort to repair the event area/race route to pre event conditions.

- ❑ 55. The permittee will be responsible for the prompt repair of any event-related damages to utility rights-of-way and related improvements within 72 hours after the event. If they are not returned to a condition that is satisfactory to the Authorizing Official and the Utility Company, the permittee will be assessed a fine to cover the cost of a contractor to get the work completed.

- ❑ 56. Staking, flagging materials, equipment, temporary facilities, litter and all other event related materials will be completely removed to an approved landfill by the permittee within 15 days following the event. If BLM post-race field checks reveal event related materials that have not been removed, BLM shall notify permittee and allow an additional 7 days for removal. Permittee shall be required to reimburse BLM for costs of subsequent field checks. If event materials remain after the second field check, BLM shall effect their removal by both contract or BLM personnel, and bill the permittee for any associated costs.

Activity Site Rehabilitation

- ❑ 57. The Authorized Officer will complete a Post Event/Race Evaluation. Upon inspection, a determination will be made on which portions of the event area or racecourse, if any, need additional rehabilitation. The permittee may be required to grade, drag, disc or seed; soil and vegetation areas within the course and pit areas that were significantly changed or impacted as a result of the event. Main access roads used by support or rescue vehicles where significant road damage occurs must be graded to pre-event status. Site-specific stipulations requiring rehabilitation of areas must be accomplished within 15 days following the event unless a shorter time frame is required for public safety. The permittee shall be responsible for all costs associated with rehabilitation required.
- ❑ 58. BLM will inspect the course within thirty days following the event to determine additional rehabilitation needs. The permittee may be required to grade, drag, disc or seed soil and vegetation areas within the course and pit areas that were changed or impacted as a result of the event. Main access roads used by support or rescue vehicles during muddy conditions where significant road damage occurs must be graded to pre-event status.

Post Event rehabilitation guidelines:

- a. Where berms, ruts and/or depressions due to soil loss have occurred, smooth the race course to pre-event soil levels. A grader will be used to restore the roads used in the race to the pre-event condition. Inslope, outslope, crowns and rolling dips will be restored to assure water drains from the road surface.
- b. Where soil erosion or channelized water run-off is likely, such as sustained grades in excess of 6 percent, constructed rolling dips or water bars may be required with spacing as recommended by BLM/Pershing County. The required spacing will depend on grade at area being rehabilitated/restored.
- c. Level berms created by hard turns.
- d. Repair any damages to fences, posts, gates or range improvements that occurred as a result of the race. Soil ruts that develop at gate locations must be leveled to prevent livestock from getting under the gate/fence. Loose wire must be tightened to prevent livestock entanglement. Leave gates open or closed according to condition found at race time.
- e. Where mechanized equipment is required to make road repairs, use shall be coordinated with Pershing County Road Department. The Authorized Officer will coordinate with Pershing County to see that repairs are made to their specification and satisfaction. Extra caution must be taken when making repairs near historic ruins, rock walls, tailings piles, and historic debris to avoid damage to these resources.
- f. Any remaining water soluble paint markings will be scrubbed off rock

Media

- 59. All media personnel are to strictly adhere to the applicable Special Recreation Permit Stipulations issued to the permittee for the duration of the permit.
 - A copy of video will be submitted to the Authorized Officer of the BLM.
 - Provision for credit will be listed on subject as:
USDI, Bureau of Land Management
Las Vegas Field Office, Nevada
- 60. Pre-event use of event site or Media Pre-running of racecourses will not be allowed without written permission from the BLM Authorized Officer.
- 61. Media personnel must stay on existing roads and are not permitted to travel cross-country at any time. Media personnel driving on portions of the racetrack will be escorted off the racecourse and cited.
- 62. Media personnel must wear the appropriate safety vests, and displayed the proper credentials at all times. This includes have the vehicle pass properly affixed to the windshield of the media vehicle.
- 63. Stay off the track. Media personnel are allowed to stand near the track but please stay off. Media personnel seen on the track will be escorted off the race site and not be allowed back to the event.
- 64. **Media interfering with law enforcement or emergency personnel will be prosecuted under Federal and/or local laws.**
- 65. Any aircraft must use the designated helicopter pad for staging, refueling, and long term stationing. The designated helicopter pad must be on lands other than public unless authorized by the Special Recreation Permit.
- 66. Aircraft refueling operations occurring on public lands must conform to the “Fuel and Fluids Management” stipulations listed above.

Wild land Fire Precautions

- 67. The permittee will do everything reasonable both independently and/or on request of the Authorized Officer to prevent or suppress fires caused by the event vehicles, participants, support crews, spectators or related activities.
- 68. The permittee or any participant may be held accountable for suppression of a wild land fire determined to be directly caused by those associated with the event. Reimbursement shall be required from the permittee for Federal, State and/or private costs as a result of suppression and rehabilitation incurred as a result of fires caused by event related activities. An escaped fire or an observed wild land fire ignition shall be reported

immediately by calling 911, notifying CNIDC and/or emergency response personnel. In the event that cell phone coverage is absent in the event area, provisions shall be made for satellite telephone communications from the event location.

Central Nevada Interagency Dispatch Center: (775) 623-3444

Pershing County Sheriff's Dispatch: (775) 273-2641

Humboldt County Sheriff's Dispatch: (775) 623-6429

- 69. Factory equipped hardware such as spark arresters, mufflers and baffles are required on all vehicles.
- 70. ABC fire extinguishers of at least 20 pound capacity and shovel(s) shall be located at the event staging area and at each check point along the event route.
- 71. Use of incendiaries, fireworks, or road flares is prohibited.
- 72. Race drivers and case or support vehicles shall avoid parking on vegetation off the sides of roads and trails. It is recommended drivers of all vehicles frequently check for smoldering grass or brush lodge in the undercarriage, skid plates or pans or exhaust systems.

Noxious Weed Prevention

- 73. The permittee will inspect all race vehicles to ensure they have been cleaned prior to the race. This is an effort to prevent the introduction of any new weed populations. Any race vehicle not cleaned before the race will be subject to penalty and/or disqualification. The permittee will also make an honest effort to encourage those at the race to wash all vehicles at the nearest washing facility.

Compliance and Monitoring Standards

Non-compliance with any above permit stipulations will be grounds for denial of future permits, and/or race cancellation.

Performance evaluation, violations, and penalties:

Performance will be based upon:

Stipulation and Operating Plan Compliance;

Protection of Resource Values; and

Quality and safety of services provided to the public.

Performance levels are:

A= Acceptable: Permittee is in compliance with permit stipulations; has taken prompt steps to rectify any performance issues and complaints; does not repeatedly violate conditions, or show a disregard for stipulations.

P= Probationary: Where there have been repeated violations or disregards for permit stipulations.

U= Unacceptable: Permittee willfully and/or repeatedly violated permit conditions to provide substandard service to the public. Conduct is lacking in reasonableness or responsibility to the point that it becomes reckless or negligent.

Response to Violations and Penalties:

A= Complaints/issues may be discussed over the phone or in writing. When due dates or completion dates are established, the permittee will be afforded a 15-day grace period, unless otherwise specified.

P= A Notice of Noncompliance (Notice) will be issued by the Authorized Officer specifying in what respects the permittee has failed to comply, the terms of the probationary status, and the consequences of further noncompliance.

U= Permit privileges would be revoked for one to three years. The permittee would be allowed the opportunity to appeal the decision under Title 43 CFR, Part 4.

Critical Standards - a breach of critical standards can lead directly to administrative penalties, suspension or revocation of a permit. Critical standards are stipulations and requirements necessary for the health and welfare of the public and protection of resources. The permit shall be suspended or revoked if required State or local licenses pertaining to public health and safety are revoked. Violation of mandatory Federal or State safety requirements will result in probationary status or loss of permit privileges.

The conviction of a violation of any Federal or State law or regulation pertaining to the conservation or protection of natural resources, the environment, endangered species or antiquities that is related to permit operations will result in probationary status or loss of permit privileges.

I declare I have read and understand all of the stipulations associated with this Special Recreation Permit. I acknowledge that as signee of the permit and these stipulations that I am fully responsible for all of the mitigation measures and compliance with stated permit stipulations and that non-compliance with any permit stipulations will be grounds for denial of future permits, and/or race cancellation, and/or prosecution of applicable Federal, State and/or Local laws.

SPECIAL RECREATION PERMIT STIPULATIONS
2012 TankSlappers MC Race
Addendum – Native American Concerns

Due to concerns from the pyramid Lake Paiute Tribe, the proposed race should be kept away from the eastern shore of the former Winnemucca Lake. The routes through T26N R24E sec. 09 and 26N R24E sec. 16 should not be used. Instead the proposed course should be rerouted through T26 N R24 E sec.10. See Attached map.
