

McCann, John

Feb 20

to me

Awesome. Thanks for the heads up.

John,

Just for the DNA record, in the case of a rare flooding a contingency plan will be addressed in the Incident Action Plan for BM 2013.

Thanks

I saw a couple of minor typos, but nothing that would stop me from signing the document. Have you put any more thought into the issue of rare flooding?

Good Morning Team,

Please review the (DNA Form_including Review & Conclusion) document located on the S drive in the following location:

S:\NEPA_Work\DNAs\Burning Man ICP 2013

Please give feedback on the documents so we can wrap this puppy up.
Thanks
