The proposed action is in conformance with the applicable LUP because it is specifically provided for in the following LUP decision(s):

GM01 Management of rangeland resources will be guided by the Cerbat/Black Mountains (1978) and Hualapai Aquarius (1981) grazing environmental impact statements and range program summaries (RMP, page 24). The objectives for the rangeland management program are listed in the Cerbat/Black Mountains (1978) and Hualapai Aquarius (1981) grazing environmental impact statements (RMP, Page 39).

GM-24/II Manage 25 allotments in the Improve (I) category (RPS 1983); In the RMP page 462 24 allotments are listed in the I category.

C: Compliance with NEPA:

This Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, D. Rangeland Management (1) Approval or transfers of grazing preference.

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed (See Attachment 1), and none of the extraordinary circumstances described in 516 DM 2 apply.

I considered the plan conformance and NEPA compliance record and have determined that the proposed project is in conformance with the approved land use plan, and none of the exceptions described in 516 DM 2, Appendix 2 apply, and no further environmental analysis is required.
