

APPENDIX C
Proposed ROUTE DESIGNATION ADJUSTMENTS
Ironwood Forest National Monument
Travel Management Plan

Route designation adjustments are proposed for several routes or route segments to address administrative access needs and resource protection needs identified during preparation of this TMP. The route designations are an implementation level decision, and these adjustments are needed to ensure that access for use, maintenance and operation of existing electric power lines on Monument lands is accommodated.

ROUTE ID	LENGTH METERS	ROUTE DESIGNATION CONCURRENT WITH RMP	ROUTE DESIGNATION AFTER ADJUSTMENT	REMARKS
638D	1153	ADMINISTRATIVE PRIMITIVE ROAD	RESTORATION	ROUTE ACROSS SENSITIVE CULTURAL RESOURCE MANAGEMENT SITE
