“Issuance of Special Recreation Permits for day use or overnight use up to 14 consecutive nights; that impacts no more than 3 staging area acres; and/ or for recreational travel along roads, trails, or in areas authorized in a land use plan”.

**NEPA Number:** DOI-BLM-NV-C010\_2013-0049-CX

**Project Name:** Castle Creek Outfitters

**Project Description:** Mr. Shane McAfee, a licensed Master Guide for hunting in the State of Nevada has submitted a commercial Special Recreation Permit (SRP) application to the Elko District Office for hunting and guiding on BLM managed lands on a multi-jurisdictional, statewide basis. State and Federal regulations require guides to secure land use permits with the appropriate land management agency when charging a fee to accompany customers during the legal hunting and fishing seasons. Mr. McAfee intends to guide customers on hunting trips throughout Nevada, with actual locations determined by client demand. Specially designated areas such as Wilderness Study Areas will be excluded from permitted use in the Carson City District until an Environmental Assessment level analysis is completed (43 CFR 2932.5). The permit will be valid for a two year period with an annual renewal clause dependent upon adherence to stipulations, completion of required paper work and payment of fees. Guiding may occur on public lands by hiking or use of ATV and 4WD's on existing routes. Cross country travel is not permitted. Camping will be in tents, camper or motel rooms. It is anticipated that requested use will produce minimal impacts to resources. There will be a potential to reduce impacts through the application of stipulations and regulations compared to the alternative action which would be the unregulated use by unescorted and unsupervised hunters or hunting groups.

The Elko District Office will be the lead on the permit, while each District Office within the state will review the application, provide cultural and NEPA clearance and additional stipulations as necessary for their respective management areas.
