

## DECISION RECORD

U.S. Department of the Interior  
Bureau of Land Management  
Tucson Field Office

Pima County; State Route 86 Expansion, Right-of-Way Grant  
DOI-BLM-AZ-G020-2013-0034-EA  
AZA-36648

**Background:** On May 9, 2013 the City of Tucson filed an application in order to alleviate the conflict with the expansion of Arizona Department of Transportation (ADOT) SR 86 on public lands.

**Decision:** It is my decision to authorize a Federal Land Policy and Management (FLPMA) right-of-way grant to the City of Tucson for the development and maintenance for a 6 or 8 inch water line AZA-36648. AZA-36648 is located in T. 15 S., R. 12 E., Section 3. There are two segments equaling a total of 0.45 acres. One grant will be issued for these sites.

In summary the following table lists the actions that will occur under the decision:

Permit Number	Permit type	Location	Pipeline dimensions	Acres added
AZA-36648	ROW granted	Segment 1 T.15 S., R. 12 E., Section 3, Lot 1	15' x 1070'	0.37 acres
		Segment 2 T.15 S., R. 12 E., Section 3, Lots 2 and 30.	15' X 230'	0.08 acres

An active & authorized LR2000 record search was done on the public lands. There are numerous lands actions that are being corrected at the same time. There are no active mining claims.

**Authorities:** Federal Land Policy and Management Act, Public Law 94-579, October 21, 1976 as amended through September 1999.

**Terms, Compliance , and Monitoring:** Mitigations regarding the biological resources resulting from construction and maintenance of these grants and permits can be found in Federal Highway Administration (FHWA) environmental assessment (EA) numbered STP-086-A (APA) 086 PM

156 H6806 01C dated April 16, 2010 and amended August 14, which is incorporated by reference in the FONSI/DR and will be part of the issuance for this grant. The attached standard stipulations will also be adhered to. The new grant will be issued for a thirty year term and with the right of renewal under Title V of FLPMA.

**Alternatives Considered:** The “No Action” alternative was analyzed in the environmental assessment. The No Action alternative was not selected because it would not meet the purpose and need for the project which is to alleviate the conflict with SR 86.

**Rational for Decision:** The proposed action is specifically provided for in the Phoenix RMP. The environmental assessment analyzed the potential impacts to the environment and the public. A FONSI has been signed; therefore there are no significant impacts to the environment that would require an environmental impact statement. By selecting the proposed action, the Tucson Field Office is implementing this portion of the Phoenix RMP.

Therefore, pursuant to 43 CFR (2800), it is my decision to approve the grant to Qwest Corporation/dba CenturyLink including the mitigation measures shown in the Federal Highway Administration (FHWA) environmental assessment (EA) numbered STP-086-A (APA) 086 PM 156 H6806 01C dated April 16, 2010 and amended August 14, 2014.
