

## Decision Record

**AKFF093987**

Decision: It is my decision to accept the donation of USS 9251 from an anonymous donor. I have reviewed Environmental Assessment DOI-BLM-AK-F020-2015-0002-EA and have concluded that the impacts of accepting the donation of USS 9251 within the Eastern Interior Field Office area have been adequately addressed. The Finding of No Significant Impact for this action found no impacts that approached the threshold of significance and an environmental impact statement is not required.

Rationale:

1. The Proposed Action is in compliance with the White Mountains National Recreation Area Resource Management Plan and the Beaver Creek River Management Plan. Authority to accept this donation is derived from Section 307 (c) of the Federal Land Policy and Management Act of 1976, as amended.
2. The completed Certificate of Inspection and Possession as well as the Pre-Acquisition Liability Survey (inspection date July 29, 2014) certify that the land is suitable for acquisition.
3. There are no anticipated impacts to cultural resources.
4. The proposed action will not negatively impact subsistence uses.
5. The proposed action will not negatively impact salmon or habitat known to support salmon and therefore, the proposed action was assigned the Essential Fish Habitat (EFH) determination: *No effect* and no further EFH consultation is required.
6. The action will enable the BLM to manage this land in a manner that is consistent with the management objectives for the White Mountains National Recreation Area and the Beaver Creek National Wild River.
