PERMIT/SERIAL/CASE FILE NUMBER. # COC-77048 / 292009

PROPOSED ACTION. Commercial filming / Land Use Permit for Kristin Edwards of TrueSight Media LLC.

LOCATION OF PROPOSED ACTION. BLM lands within game management units (GMU) 35 & 36; Sixth Principal Meridian, Eagle County, Colorado (see map below).

DESCRIPTION OF PROPOSED ACTION. The applicant, Kristin Edwards of TrueSight Media LLC, has applied for a land use permit to produce a reality TV episode of Shed Wars. The antler shed hunt filming dates are February 23 through February 25, 2015 in Game Management Units 35 & 36, on private and public lands. There will be a crew of two camera operators following a group of 3-5 people collecting antler sheds. They will be bringing their own sheds to hunt, and will not disclose the location of the hunt. It is anticipated that a promotion DVD or a TV episode would be the final product for TrueSight Media.

Non-commercial no-impact filming, such as videos or photographs taken by hikers, campers, hunters, river runners, etc., does not require a permit since the use meets the definition of casual use under 43 CFR 2920.0-5(k). It is only the commercial nature of this filming that makes a permit necessary under the 2920 regulations.

LAND USE PLAN CONFORMANCE. The Proposed Action is subject to and has been reviewed for and is in conformance with (43 CFR §1610.5 and § 2800, BLM 1617.3) the following plan.

Name of Plan. Record of Decision and Glenwood Springs Resource Management Plan.

Date Approved. January, 1984; revised in 1988; amended in November 1991 - Oil and Gas Leasing and Development - Final Supplemental Environmental Impact Statement; amended Nov. 1996 - Colorado Standards and Guidelines; amended in August 1997 - Castle Peak Travel Management Plan; amended in March 1999 - Oil and Gas Leasing & Development Final Supplemental Environmental Impact Statement; amended in November 1999 - Red Hill Plan Amendment; and amended in September 2002 – Fire Management Plan for Wildland Fire Management and Prescriptive Vegetation Treatment Guidance; amended in August 2006 - Roan Plateau Planning Area Including Naval Oil Shale Reserves Numbers 1 & 3 Resource Management Plan Amendment & Environmental Impact Statement.

The Proposed Action is in conformance with the LUP because it is specifically provided for in the following LUP decision(s):

Decision Number/Page. Page 5, Administrative Actions

Decision Language. Various types of administrative action will require special attention beyond the scope of this plan. They include issuance of permits for fuelwood, including issuance of grants, leases, permits, and resolution of trespass...”

COMPLIANCE WITH NEPA. The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 11.9, E. Realty Numbers:

(19) Issuance of short-term (3 years or less) rights-of-way or land use authorizations for such uses as storage sites, apiary sites, and construction sites where the proposal includes rehabilitation to restore the land to its natural or original condition.

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in 516 DM 2 apply.

REMARKS/MITIGATION. The following mitigations will be carried forward within the permit under Special Conditions.

1. Cultural Resource/Native American Concerns.

If subsurface cultural values are uncovered during operations, all work in the vicinity of the resource will cease and the authorized officer with the BLM notified immediately. The operator shall take any additional measures requested by the BLM to protect discoveries until they can be adequately evaluated by the permitted archaeologist. Within 48 hours of the discovery, the State Historic Preservation Officer (SHPO) and consulting parties will be notified of the discovery and consultation will begin to determine an appropriate mitigation measure. BLM in cooperation with the operator will ensure that the discovery is protected from further disturbance until mitigation is completed. Operations may resume at the discovery site upon receipt of written instructions and authorization by the authorized officer.

Native American human remains: Pursuant to 43 CFR 10.4(g), the holder must notify the authorized officer, by telephone, with written confirmation, immediately upon the discovery of human remains, funerary items, sacred objects, or objects of cultural patrimony on federal land. Further, pursuant to 43 CFR 10.4 (c) and (d), the holder must stop activities in the vicinity of the discovery that could adversely affect the discovery. The holder shall make a reasonable effort to protect the human remains, funerary items, sacred objects, or objects of cultural patrimony for a period of thirty days after written notice is provided to the authorized officer, or until the authorized officer has issued a written notice to proceed, whichever occurs first.

I considered this action and determined that it may be categorically excluded. I have evaluated the action relative to the 12 criteria listed above and have determined that it does not represent an exception and is, therefore, categorically excluded from further environmental analysis.
