Case File, AA-93957

DECISION RECORD

Background

The State of Alaska, Department of Transportation & Public Facilities, Southcoast Region (ADOT), submitted an application for a right-of-way for a road rehabilitation project on the existing Hydaburg Road on Prince of Wales Island. This project includes resurfacing the existing roadway, including limited subsurface removal and replacement. Signs and guardrails will be replaced as needed and the bridges will be inspected, with bridge railings being replaced where required. This project is being funded with FHWA funds and would be accomplished during the 2015 summer season.

Decision

It is my decision to implement the proposed action as described in the attached Categorical Exclusion documentation, DOI-BLM-AK-A020-2015-0024-CX. The proposed action is in conformance with the ROF/RMP/ROD; BLM 2008. Planning Decision, Lands Goal L-2, calls for issuing rights-of-way for a variety of uses including but not limited to: roads, water pipelines, electric lines and communication sites under the authority of Title V of FLPMA.

Specifically, it is my decision to authorize:

The State of Alaska, Department of Transportation and Public Facilities, Southcoast Region (ADOT), a right-of-way to proceed with the road rehabilitation project on Hydaburg Road as described in the attached Categorical Exclusion.

The authorization would also be subject to all standard stipulations for rights-of-way. (attached below)

Rationale for Decision

It is my decision to implement the proposed action on BLM-managed lands as described in the attached Categorical Exclusion documentation, DOI-BLM-AK-A020-2015-0024-CX.

Specifically, it is my decision to offer a 20-year right-of-way with option for renewal for the ADOT Hydaburg Road rehabilitation project. This authorization will expire on December 30, 2035.

The proposed action has been reviewed by Glennallen Field Office staff and appropriate Project Design Features or stipulations, as specified, will be incorporated during project implementation. Based on the attached Categorical Exclusion review, I have determined that the proposed action involves no significant impact to the human environment and no further analysis is required.
