

A. Background

BLM Office: Arctic Field Office LLAKF010

Lease/Serial/Case File No.: FF096026

Applicant: Richard French II
DBA Alaska Alpine Outfitters
P.O. Box 190836
Anchorage, Alaska 99519

Proposed Action Title/Type: Special Recreation Permit

Dates of Proposed Activity: August 10 – August 30, 2015 (1 Year Permit Renewal)

General Location of Proposed Action: Nigu, Etivluk, Colville & Killik rivers

Description of Proposed Action: The applicant, Rick French II, doing business as Alaska Alpine Outfitters (AAO), is proposing a commercial guided caribou, grizzly bear, and wolf hunting trip in the NPR-A and on lands south of the NPR-A.

The trip would occur on the Nigu, Etivluk and Colville Rivers from approximately August 10, 2015 to August 30, 2015 with two guests and one guide. The clients would fly via a fixed wing charter to Bettles to collect gear and groceries for the trip. From there a Dehaviland Beaver equipped with floats would take them to the headwaters of the Nigu River. They would put their rafts (2) in at Isagok Lake in the Noatak National Preserve, float the Nigu River to the Etivluk River, and follow the Colville to the Killik Bend, which is located near the Killik River/Colville River confluence. At the end of their trip, they would be picked up with a Beaver on floats at the Killik Bend.

Mr. French would guide his clients hunt for caribou, grizzly bears, and wolves. They plan on floating ten miles per day, but the floating time would be dictated by the location of the game animals. On occasion, they would like to stay at the same camp area for more than one night to hike and hunt. Water would be obtained from free flowing natural sources and either boiled or run through a filter.

They do not plan to use fuel caches and would only be carrying 2 gallons of Coleman fuel for a cook stove and a lantern. AAO would use bear resistant containers for food storage. All trash would be backhauled to Fairbanks for disposal. Grey wash water and kitchen waste water would be filtered to remove the solids and the liquid discharged to the land surface at least 100 feet from a water body. They would use biodegradable hand/body soap for sanitation purposes. These activities would take place near the latrine to avoid dirty water directly near any water sources.

Mr. French would be the guide for the trip, is certified in CPR / first aid, and has completed survival training. He will have a GPS unit and a satellite phone, which will be stored in a

waterproof container. For a contingency plan, he has an S.P.O.T., an electronic locating transmitter.

Mr. French has notified the Arctic Slope Regional Corporation lands office of his trip plans and is aware that hunting is not allowed on its lands.

B. Land Use Plan Conformance

The proposed action is in conformance with the following planning documents:

- National Petroleum Reserve-Alaska Integrated Activity Plan/Environmental Impact Statement (IAP/EIS) dated November 2012 and associated Record of Decision dated February 2013,
- Utility Corridor Resource Management Plan (RMP) approved 1/11/1991
- Utility Corridor Final Environmental Impact Statement approved 9/27/1989
- Western Arctic Resource Management Plan (RMP) evaluated 2/5/1990

The proposed action is in conformance with the Naval Petroleum Reserves Production Act, which allows for the authorization of uses consistent with the purposes of the Act.

C. Compliance with NEPA

The IAP/EIS Record of Decision for the NPR-A developed stipulations and best management practices applicable to all activities in NPR-A. The stipulations and best management practices applicable to the proposed action will be provided, along with project-specific mitigation, to the applicant and are entitled: "FF096026 Alaska Alpine Outfitters 2015 Stipulations" and "United States Department of the Interior Bureau of Land Management Commercial Land Based Special Recreation Permit Stipulations."

The Proposed Action is categorically excluded from further documentation under the National Environmental Policy Act (NEPA) in accordance with 516 DM 2, Appendix 1, or 516 DM 11.9. Specifically the proposed action meets the criteria for a categorical exclusion under 516 DM 11.9, BLM H-1790-1 National Environmental Policy Act Handbook Appendix 4(F-10) BLM Categorical Exclusions.

"Issuance of Special Recreation Permits for day use or overnight use up to 14 consecutive nights; that impacts no more than 3 staging area acres; and/or for recreational travel along roads, trails, or in areas authorized in a land use plan."

This categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The proposed action has been reviewed, and none of the extraordinary circumstances described in 516 DM 2 apply.

Extraordinary Circumstances	Yes	No
2.1 Have significant impacts on public health or safety.		X
2.2 Have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation or refuge lands; wilderness areas; wild or scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 11988); national monuments; migratory birds; and other ecologically significant or critical areas.		X
2.3 Have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources [NEPA Section 102(2) (E)].		X
2.4 Have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		X

2.5 Establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		X
2.6 Have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		X
2.7 Have significant impacts on properties listed, or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office.		X
2.8 Have significant impacts on species listed, or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical Habitat for these species.		X
2.9 Violate a Federal law, or a State, local, or tribal law or requirement imposed for the protection of the environment.		X
2.10 Have a disproportionately high and adverse effect on low income or minority populations (Executive Order 12898).		X
2.11 Limit access to and ceremonial use of Indian sacred sites on Federal lands by Indian religious practitioners or significantly adversely affect the physical integrity of such sacred sites (Executive Order 13007).		X
2.12 Contribute to the introduction, continued existence, or spread of noxious weeds or non-native invasive species known to occur in the area or actions that may promote the introduction, growth, or expansion of the range of such species (Federal Noxious Weed Control Act and Executive Order 13112).		X

D. Approval and Contact Information

I considered the proposed action and have determined that there is no potential for significant impacts.
