

REQUIRED INFORMATION FOR MINERAL MATERIAL SALES

MINE PLAN

- How Many tons do you want to purchase? 150,000± Tons/Yr.
What kind of materials do you want to purchase: Sand & Rock Used For Const.
- A map, sketch, or aerial photograph identifying the area for which you are applying. USGS Quadrangle map "Fortuna, Ariz." attached.
- The area and depth you plan to disturb.
Area: feet long ± 788' N-S Feet Wide 660' E-W
Area: Acres 11.74
- Existing and proposed access.
Existing Roads Co. 8th St.
Proposed new roads None
- Name of pit or location of major topographic and known cultural features.
West side of Gila Mtns. approx. 3 miles north of Interstate 8.
- A description of your proposed methods of operation.
Transport mat'l to adjacent pit owned by applicant for crushing and screening into construction materials.
- The periods during which you will operate.
What date will you start? Approx. 60 days after receiving approval.
What date will you finish? Prefer a 10 yr. lease
How many hours a day? 8 hrs/day, 5 day/wk, typical. Extra hrs as req'd.
- A description of measures you will take to prevent hazards to public health and safety and to minimize and mitigate environmental damage. (Fuel spills, dust, traffic)
Equipment to be parked & serviced off-site at the end of each day.
Dust control will be accomplished by periodic water spray.

RECLAMATION PLAN

- A statement of the proposed manner and time in which you will complete reclamation of the areas disturbed by your operations. Perimeter slopes will be left at a ratio of 2H:1V. Bottom will be graded level and berms established to prevent slope erosion and storm water runoff.
- A map or sketch which delineates the area you will reclaim.
See 1"=50' Contour Map-Attached
- You must pay a processing fee as provided in Sec. 3602.31(b) and 3602.44(f). If the request is for mineral materials that are from a community pit or common use area this requirement does not apply.
