

# Highway 90 OHV Training Course Proposal

# Mission Statement

As representatives of the local off-road motorized community, the Western Slope 4 Wheelers would like to propose a section at the Highway 90 area, be designated to the 4 wheel drive public/motorized recreational enthusiast.

This proposed location would provide an area for the OHV community to have training seminars to educate users in safety, understanding their vehicle, developing off road driving skills and proper recovery techniques. The course would be designed primarily to be used by stock 4x4 vehicles but could be utilized by all 4x4 vehicles.

...

# Mission Statement

We envision a course that would contain several obstacles that would imitate the natural terrain people would experience here in south west Colorado.

By utilizing the natural landscape at the Highway 90 area, we would be able to take advantage of the existing terrain in the design of the course and be in close proximity to local communities.

With the use of a proper training course users will be better equipped to handle potential hazards on the trail and understand their (personal/vehicle) capabilities. An educated driver promotes trail safety.

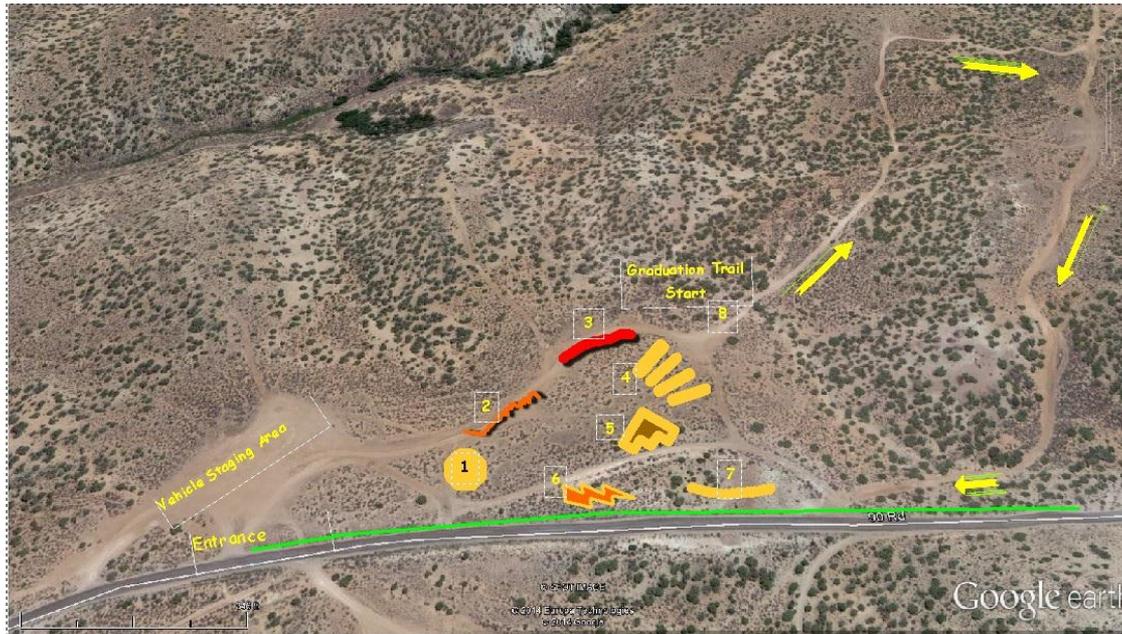

# Requirements

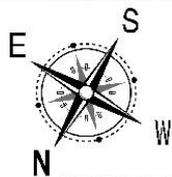

- 6 acres minimum
  - Enough to create areas to have groups watch at each obstacle
  - Accommodate a group going thru each obstacle without crowding
- Close Proximity to Town
  - Short drive to training area
  - Short drive to town after class to engage at eatery to eat/review class
  - Auto Dealerships able to take advantage of training associates/consumers
- Use of natural terrain
  - Limit use of resources to build obstacles
- Parking

# Highway 90 Staging Area

- 1..Sand Pit**
- 2..Rock Gully**
- 3..Multi-track hill**
- 4..Off-Camber Crawl**
- 5..Articulation Obstacles**
- 6..Waterfall/Steps**
- 7..Winch Hill/Vehicle Recovery**
- 8..Graduation Trail**

# Key Take Aways

What do our drivers learn?

- *Safety! Safety! Safety!*
- *Off-Road Courtesy*
- *Driver self awareness/confidence*
- *Vehicle awareness*
- *Vehicle capability*
- *Environment awareness*
- *Tread lightly*
- *Open to ALL OHV*
- *Have Fun Learning!*
