Campbell Tract Facility Antenna Sites Removal
Categorical Exclusion, DOI-BLM-AK-010-2015-0012-CX

Case File, AA-77728

DECISION RECORD

Decision

It is my decision to implement the proposed action on BLM-managed lands as described in the attached Categorical Exclusion documentation, DOI-BLM-AK-A010-2015-0012-CX.

The Bureau of Land Management (BLM) has procured by contract Alaska Environmental (AKE) to remove out-of-use communications antennas and associated infrastructure from three sites (West Communications Hill, Upper Meteor Burst and Lower Meteor Burst) at the Campbell Tract Facility (CTF). Following the removal and loading of all discarded and recycled material, AKE will reseed and restore the land to as close to the original conditions as possible.

Rationale for the Decision

The proposed action has been reviewed by Anchorage Field Office staff and appropriate Project Design Features, as specified, will be incorporated during project implementation. Based on the attached Categorical Exclusion review, I have determined that the proposed action involves no significant impact to the human environment and no further analysis is required.

The subject antenna sites are out-of-service, derelict, and their debris is classified as solid waste. Solid waste is regulated by the Resource Conservation Recovery Act and by State of Alaska regulations for hazardous and solid wastes. To comply with these laws and regulations, BLM must properly dispose of the antenna sites debris. To do so requires removal of the materials from the CTF and re-using, recycling, or disposal at a properly permitted off-site disposal facility

Office as noted above. *The BLM does not accept appeals by facsimile, email, or other electronic means.* The appellant has the burden of showing that the decision appealed from is in error.

If you wish to file a petition pursuant to regulation 43 CFR § 4.21 (58 FR 4939, January 19, 1993) for a stay of the effectiveness of this decision during the time that your appeal is being reviewed by the Board, the petition for a stay must accompany your notice of appeal. Except as otherwise provided by law or other pertinent regulation, a petition for a stay of decision pending appeal shall show sufficient justification based on the following standards: (a) The relative harm to the parties if the stay is granted or denied, (b) The likelihood of the appellant's success on the merits, (c) The likelihood of immediate and irreparable harm if the stay is not granted, and (d) Whether the public interest favors granting the stay.

Copies of the notice of appeal and petition for a stay must also be submitted to each party named in this decision and to the Interior Board of Land Appeals and to the Office of the Solicitor (see 43 CFR § 4.413); Office of the Regional Solicitor, Alaska Region, U.S. Department of the Interior, 4230 University Drive, Suite 300, Anchorage, Alaska 99508; at the same time the original documents are filed with this office.
