How the Draft IAP/EIS is Organized

The format of this IAP/EIS follows guidance provided by the Council on Environmental Quality and the BLM NEPA Handbook H-1790-1 (USDOI BLM 2008). Below is a list of the types of information found in each volume of the IAP/EIS.

VOLUME 1

Chapter 1 – Introduction: Summarizes the purpose of and need for this IAP/EIS and decisions to be made.

Chapter 2 – Alternatives: Describes and compares proposed management alternatives.

Chapter 3 – Affected Environment: Presents existing natural and socioeconomic resources in the NPR-A and trends, including those associated with climate change.

VOLUME 2

Chapter 4 – Environmental Consequences (sections 4.1 – 4.6): Evaluates impacts of the alternatives on resources and uses in the NPR-A and the cumulative and other effects relevant to making a decision among the alternatives.

VOLUME 3

Chapter 4 – Environmental Consequences (continued: sections 4.7 – 4.12).

VOLUME 4

Chapter 5 – Consultation and Coordination: Describes public and government (including tribal) consultation undertaken for this plan and the development of alternatives and lists the plan's preparers.

Appendices

Appendix A: ANILCA Section 810 Analysis of Subsistence Impacts

Appendix B: Federal, State, and Local Permits and/or Approvals for Oil and Gas Exploration, Development, and Production Activities

Appendix C: NPR-A Climate Change Analysis: An Assessment of Climate Change Variables in the National Petroleum Reserve in Alaska

Appendix D: Essential Fish Habitat

Appendix E: Common, Scientific and Iñupiaq Names of Species Listed in the IAP/EIS

Appendix F: BLM Sensitive Species List for Alaska

Appendix G: Information, Models, and the Assumptions Used to Analyze the Effects of Oil Spills
