Encana

I am a couple days late for the public comment period but wanted to say Encana is a very good company and exceeds all regulations in areas where they operate. The NPL project is going to be very beneficial to the communities in the County and will also benefit people in the State of Wyoming. Hopefully this process can be completed timely so Encana stays in the area and keeps people employed. These large companies have many other opportunities in their portfolio and as they answer to shareholders they will have no choice but to fund other projects if this one is delayed.
