Description of Proposed Action: Right-of-way renewal for an existing surface 4.5 inch pipeline.

Decision:

I have reviewed the proposed action for the renewal of a 4.5 inch surface natural gas pipeline (DOI-BLM-WY-D040-2016-0103-CX) using the Categorical Exclusion Review (CER) process described in BLM Manual H-1790-1. I have determined that the renewal is in conformance with the approved land use plan, that the action would not result in significant environmental effects, and that no extraordinary circumstances apply. Therefore, it does not represent an exception, and is categorically excluded from further environmental review.
