## Worksheet

### Determination of NEPA Adequacy

U.S. Department of the Interior  
Utah Bureau of Land Management

---

The signed CONCLUSION at the end of this worksheet is part of an interim step in the BLM's internal analysis process and does not constitute an appealable decision; however, it constitutes an administrative record to be provided as evidence in protest, appeals and legal procedures.

OFFICE: Moab Field Office

PROJECT NUMBER: MFO-Y010-16-087R

PROPOSED ACTION TITLE: Special Recreation Permit for Rocky Mountain Adventure Riders

LOCATION/LEGAL DESCRIPTION: Jeep Safari Routes, Kokopelli's Trail (motorized portions), Slickrock Trail, Enduro Loop and connecting B roads within the Moab Field Office.

APPLICANT: Matt McCabe, 6050 Stetson Hills Blvd., Suite 140, Colorado Springs, CO 80923

#### A. Description of the Proposed Action and Any Applicable Mitigation Measures

Matt McCabe, on behalf of Rocky Mountain Adventure Riders has requested reauthorization through an organized group Special Recreation Permit (SRP) to conduct ten organized rides with no more than 10 participants per trip (typically with 6 riders or fewer). Total planned participation would be capped at 100 people. Rocky Mountain Adventure Riders has previously held an SRP with the Moab Field Office since 2015. The proposed use would typically be day use only and offered during one weekend of the year. Leave No Trace practices would be followed and all solid human waste and garbage would be packed out. Standard Utah BLM stipulations and the stipulations developed in the referenced Environmental Assessments would be attached to the SRP for Rocky Mountain Adventure Riders.

#### B. Land Use Plan (LUP) Conformance

LUP Name\* Moab Resource Management Plan                      Date Approved    October, 2008

\*List applicable LUPs (for example, resource management plans; activity, project, management or program plans; or applicable amendments thereto).

The proposed action is in conformance with the applicable LUPs because it is specifically provided for in the following LUP decisions:

Page 97 of the Moab RMP reads as follows: "Special Recreation Permits are issued as a discretionary action as a means to: help meet management objectives, provide opportunities for economic activity, facilitate recreational use of public lands, control visitor use, protect

recreational and natural resources, and provide for the health and safety of visitors.” In addition, on page 98 of the Moab RMP, it states, “All SRPs will contain standard stipulations appropriate for the type of activity and may include stipulations necessary to protect lands or resources, reduce user conflicts, or minimize health and safety concerns... Issue and manage recreation permits for a wide variety of uses to enhance outdoor recreational opportunities, provide opportunities for private enterprise, manage user-group interaction, and limit the impacts to such uses upon natural and cultural resources.”

The Moab Resource Management Plan (RMP), Final Environmental Impact Statement, signed October 31, 2008, identified lands with wilderness characteristics. The proposed use does not include any areas determined to have wilderness characteristics. The proposed activity would not result in any changes in the impacts that were analyzed in the FEIS for the RMP.

**C. Identify the applicable National Environmental Policy Act (NEPA) documents and other related documents that cover the proposed action.**

List by name and date all applicable NEPA documents that cover the proposed action.

Environmental Assessment DOI-BLM-UT-Y010-2011-0189, *Red Rock 4-Wheelers Jeep Safari and Fall Campout 10-Year Permit Renewal and Other Permitted, Non-Competitive Motorized Use of Jeep Safari Routes*, signed December 28, 2012, includes analysis of Jeep Safari routes. The other locations are covered in Environmental Assessment DOI-BLM-UT-Y010-2014-0055, *SRP for Elite Motorcycle Tours*, signed on March 14, 2014.

List by name and date other documentation relevant to the proposed action (e.g. biological assessment, biological opinion, watershed assessment, allotment evaluation, and monitoring report).

Biological Opinion for the Red Rock 4-Wheelers Jeep Safari and Fall Campout 10-Year Permit Renewal and Other Permitted, Non-Competitive Motorized Use of Jeep Safari Routes in the Moab Field Office Area, issued September 5, 2012 by U.S. Fish and Wildlife Service.

**D. NEPA Adequacy Criteria**

**1. Is the new proposed action a feature of, or essentially similar to, an alternative analyzed in the existing NEPA document(s)? Is the project within the same analysis area, or if the project location is different, are the geographic and resource conditions sufficiently similar to those analyzed in the existing NEPA document(s)? If there are differences, can you explain why they are not substantial?**

Yes  
 No

Documentation of answer and explanation: The existing NEPA document addresses the impacts of permitted motorized use of Jeep Safari and other designated routes in the Moab Field Office.

**2. Is the range of alternatives analyzed in the existing NEPA document(s) appropriate with respect to the new proposed action (or existing proposed action), given current environmental concerns, interests, and resource values?**

Yes  
 No

Documentation of answer and explanation: Environmental Assessments DOI-BLM-UT-Y010-2011-0189 and DOI-BLM-UT-Y010-2014-0044 contain analysis of the proposed action, a reduced route alternative, and a no action alternative. The environmental concerns, interests, resource values, and circumstances have not changed to a degree that warrants broader consideration.

**3. Is existing analysis adequate in light of any new information or circumstances (such as, rangeland health standards assessment; recent endangered species listings, updated list of BLM sensitive species)? Can you reasonably conclude that new information and new circumstances would not substantially change the analysis of the new proposed action?**

Yes  
 No

Documentation of answer and explanation: The existing analysis and conclusions are adequate as there has been no new information or circumstances presented. It can be reasonably concluded that all new information and circumstances are insignificant with regard to analysis of the proposed action.

**4. Are the direct, indirect, and cumulative effects that would result from implementation of the new proposed action similar (both quantitatively and qualitatively) to those analyzed in the existing NEPA document?**

Yes  
 No

Documentation of answer and explanation: The direct and indirect impacts are substantially unchanged from those identified in the existing NEPA document. Yes; site-specific impacts analyzed in the existing document are the same as those associated with the current proposed action.

**5. Are the public involvement and interagency review associated with existing NEPA document(s) adequate for the current proposed action?**

Yes  
 No

Documentation of answer and explanation: Public involvement for Environmental Assessment DOI-BLM-UT-Y010-2011-0189 included a 30-day scoping period and a 30-day public comment period on the draft EA, during which over 500 comments were received. Agencies consulted regarding the existing EA included National Park Service, U.S. Fish and Wildlife Service, Utah Division of Wildlife Resources, State of Utah, School and Institutional Trust Lands Administration (SITLA), Utah State Historic Preservation Office, and all affected Native

American tribes. Notification for the current proposed action was posted on the ENBB on June 1, 2011. This level of public involvement and interagency review is adequate for the current proposed action. Public involvement for Environmental Assessment DOI-BLM-UT-Y010-2014-0044 included listing on the ENBB on December 31, 2013. The level of public involvement offered was sufficient for the current proposed action.

#### E. Preparers

<u>Name</u>	<u>Title</u>	<u>Resource Represented</u>
Ann Marie Aubry	Hydrologist	Air quality; Water quality;
Mark Grover	Ecologist	Floodplains, Wetlands/Riparian Zones
Katie Stevens	Recreation Planner	Areas of Critical Environmental Concern; Recreation, Visual Resources, Wild & Scenic Rivers
Jared Lundell	Archaeologist	Cultural Resources; Native American Religious Concerns
David Williams	Range Management Specialist	Threatened, Endangered, or Candidate Plant Species; Livestock Grazing, RHS, Vegetation
Jordan Davis	Range Management Specialist	Invasive, Non-native species, Woodland, Soils
David Pals	Geologist	Geology, , Wastes (hazardous or solid), Water Quality
ReBecca Hunt-Foster	Paleontologist	Paleontology
Pam Riddle	Wildlife Biologist	Threatened, Endangered, or Candidate Animal Species, Migratory Birds, Utah Sensitive Species, Fish and Wildlife
Bill Stevens	Recreation Planner	Wilderness, Socioeconomics, Lands with Wilderness Characteristics, Natural Areas, Environmental Justice
Jan Denney	Realty Specialist	Lands/Access

**CONCLUSION**

Plan Conformance:

- This proposal conforms to the applicable land use plan.
- This proposal does not conform to the applicable land use plan

Determination of NEPA Adequacy

- Based on the review documented above, I conclude that this proposal conforms to the applicable land use plan and that the NEPA documentation fully covers the proposed action and constitutes BLM's compliance with the requirements of the NEPA.
- The existing NEPA documentation does not fully cover the proposed action. Additional NEPA documentation is needed if the project is to be further considered.

**Note:** The signed Conclusion on this Worksheet is part of an interim step in the BLM's internal decision process and does not constitute an appealable decision. However, the lease, permit, or other authorization based on this DNA is subject to protest or appeal under 43 CFR Part 4 and the program-specific regulations.

**ATTACHMENTS:**

**ID Team Checklist**

## INTERDISCIPLINARY TEAM CHECKLIST

**Project Title:** Special Recreation Permit for ~~And She's Dope Too~~ *Roddy Mtn Adv. Riders*  
**NEPA Log Number:** DOI-BLM-UT-Y010-2016-0145 DNA  
**File/Serial Number:** MFO-Y010-16-086R *0150*  
**Project Leader:** Katie Stevens

**DETERMINATION OF STAFF:** *(Choose one of the following abbreviated options for the left column)*

NP = not present in the area impacted by the proposed or alternative actions  
 NI = present, but not affected to a degree that detailed analysis is required  
 PI = present with potential for relevant impact that need to be analyzed in detail in the EA  
 NC = (DNAs only) actions and impacts not changed from those disclosed in the existing NEPA documents cited in Section D of the DNA form. The Rationale column may include NI and NP discussions.

The following elements are not present in the Moab Field Office and have been removed from the checklist:  
 Farmlands (Prime or Unique), Wild Horses and Burros.

**FINDING OF NO SIGNIFICANT IMPACT  
AND  
DECISION RECORD**

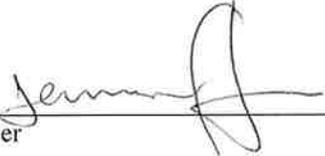

**Rocky Mountain Adventure Riders (Organized Group MotorcycleTours)**

DOI-BLM-UT-Y010-2016-0150 ~~EA~~ DSA

**FONSI:** Based on the analysis of potential environmental impacts contained in the present document, I have determined that the action will not have a significant effect on the human environment and an environmental impact statement is therefore not required.

**DECISION:** It is my decision to reissue the commercial Special Recreation Permit for Rocky Mountain Adventure Riders to operate in the areas listed under the Proposed Action. This decision is contingent upon meeting all stipulations and monitoring requirements attached.

**RATIONALE:** The decision to reauthorize this Special Recreation Permit for Rocky Mountain Adventure Riders has been made in consideration of the environmental impacts of the proposed action. The action is in conformance with the Moab Resource Management Plan, which allows for recreation use permits for a wide variety of uses to enhance outdoor recreational opportunities, provide opportunities for private enterprise, manage user-group interaction, and limit the impacts to such uses upon natural and cultural resources.
