

THE UNITED STATES
Department of the Interior
Bureau of Land Management

COMMUNICATIONS USE LEASE

Commnet of Nevada, LLC
(Lessee Name)

of 1562 N. Park Street
(Billing Address - 1)

Castle Rock **CO** **80109**
(City) (ST) (Zip Code)

THIS LEASE, dated this 10th day of May, 2016, by and between the UNITED STATES OF AMERICA, acting through the Bureau of Land Management, Department of the Interior (hereinafter called the "United States" or "Bureau of Land Management"), as authorized by the Act of October 21, 1976, and implementing regulations (90 Stat. 2743; 43 U.S.C. 1701, et seq.; 43 CFR 2800), and **Commnet of Nevada, LLC**, its agents, successors, and assigns (hereinafter called the "Lessee").

The United States and the Lessee are jointly referred to herein as the "Parties." As used herein, the "Authorized Officer" refers to the Bureau of Land Management official having the delegated authority to execute and administer this lease. Generally, unless otherwise indicated, such authority may be exercised by the Field Manager or District Manager for the public lands wherein the following described lands are located.

The United States, for and in consideration of the terms and conditions contained herein and the payment to the United States of a rental in advance by the Lessee, does hereby grant to the Lessee a lease for the following described lands in the:

County of Eureka, State of Nevada:

MDM T. 24N., R. 49E., Sec. 20, SW 1/4
(Legal Description)

(hereinafter called the "property"). The Lessee accepts this lease and possession of the property, subject to any valid existing rights, and agrees not to use the property, or any part thereof, except as a site for only the construction, operation, maintenance, and termination of a cellular communications facility. (List all approved facilities here including buildings, roads, fences, towers, generators, tanks, etc.)

The location of the property is shown generally on the enclosed maps, which is attached and made part hereof as Exhibit A. The current stipulations to the Lease are attached and made part of the Lease document as Exhibit B. This location is notated as the "Commnet Communications (Tonkin)" site (Eureka County):

Commnet of Nevada is applying for a ROW for a communication facility in connection with an FCC Mobility Fund license authorizing wireless voice and data services for rural areas. The facility will consist of a "Lite Site" Solar powered tower and associated equipment. There will be an 80' monopole tower with six panel antennas and a microwave dish. The space required for the facility will be 100' X 100', although the temporary (30-60 days) construction space will need to be 150' X 150'. The facility will constitute an entire surface disturbance of .52 acres. Additionally, an existing road will be used for access, which is approximately 6.8 miles long and 12' wide. Five areas along the access road will be improved for safe vehicle passage for a total of approximately 1.9 acres.

The dated and initialed exhibit(s), attached hereto, are incorporated into and made a part of this instrument as fully and effectively as if they were set forth herein in their entirety.

The parties agree that this lease is made subject to the following terms and conditions.

1. TENURE, RENEWAL AND TRANSFERABILITY

A. This lease will terminate at one minute after midnight on **December 31, 2045**. Termination at the end of the lease term

occurs by operation of law and does not require any additional notice or documentation by the Authorized Officer. This lease is not renewable; but the Lessee has the right to request a new lease pursuant to paragraph "C" below.

- B. The Lessee will undertake and pursue with due diligence construction and operation that is authorized by this lease. To the extent specified in Exhibits A and B, construction will not commence until after May 31, 2015.
- C. If the Lessee desires a new lease upon termination of this lease, the Lessee must notify the Authorized Officer accordingly, in writing. The notice must be received by the Authorized Officer **at least one year prior to the end of the lease term**. The Authorized Officer will determine if the use should continue and, if it is to continue, if a new lease should be issued to the Lessee and under what conditions. The Authorized Officer will require payment of any amounts owed the United States under any Bureau of Land Management authorization before issuance of another authorization.
- D. This lease is assignable with prior written approval of the Authorized Officer. Renting of space does not constitute an assignment under this clause.

II. RENTAL

- A. The Lessee must pay in advance an annual rental determined by the Authorized Officer in accordance with law, regulation, and policy. The annual rental will be adjusted by the Authorized Officer to reflect changes in fair market value, annual adjustments using the Consumer Price Index-Urban (CPI-U), changes in tenant occupancy, or phase-in of rental, if applicable.
- B. After the initial rental period rental payments are due at the close of the first business day after January 1 of each calendar year for which a payment is due. Payments due the United States for this use must be received at the Bureau of Land Management office as noted on the billing statement in the form of a check or money order payable to Bureau of Land Management/DOI. Credit card payments (VISA and MasterCard) can be made in person, through the mail, or by telephone. This lease will terminate automatically if accrued rent is not received by the Bureau of Land Management within 90 calendar days after the initial due date for the payment of such rent.
- C. Pursuant to the Federal Claims Collection Act of 1966, as amended, 31 U.S.C. 3717, *et seq*, regulations at 7 CFR Part 3, Subpart B and 4 CFR Part 102, an interest charge will be assessed on any amount due but not received by the due date. Interest will accrue from the date the payment was due. Administrative costs will also be assessed in the event that two or more billing notices are required for unpaid accounts. In addition, an administrative penalty at a percentage rate prescribed by law or regulation will be assessed for failure to pay any portion of the debt that is more than 90 days past due. This paragraph survives the termination of this lease, regardless of cause.

Other late fee charges may be assessed in accordance with standard BLM accounting procedures and policy.

- D. Disputed rentals are due and payable on or before the due date.

III. RESPONSIBILITIES OF THE LESSEE

- A. The Lessee is authorized to rent space and provide other services to customers and/or tenants and must charge each customer/tenant a reasonable rental without discrimination for the use and occupancy of the facilities and services provided. The Lessee must impose no unreasonable restrictions nor any restriction restraining competition or trade practices. By October 15th of each year, the Lessee must provide the Authorized Officer a certified statement, listing all tenants and customers, by category of use, located within the facility on September 30th of that year.
- B. All development, operation and maintenance of the authorized facility, improvements, and equipment located on the property must be in accordance with stipulations in the communications site plan approved by the Authorized Officer. If required by the Authorized Officer, all plans for development, layout, construction, or alteration of improvements on the property as well as revisions of such plans, must be prepared by a licensed engineer, architect, and or landscape architect. Such plans must be approved in writing by the Authorized Officer before commencement of any work. After completion, as-built plans, maps, surveys, or other similar information will be provided to the Authorized Officer and appended to the communications site plan.
- C. The Lessee must comply with applicable Federal, State, county, and municipal laws, regulations and standards for public health and safety, environmental protection, siting, construction, operation, and maintenance in exercising the rights granted by this lease. The obligations of the Lessee under this lease are not contingent upon any duty of the Authorized Officer, or other

agent of the United States, to inspect the premises. A failure by the United States, or other governmental officials, to inspect is not a defense to noncompliance with any of the terms or conditions of this lease. Lessee waives all defenses of laches or estoppel against the United States. The Lessee must at all times keep the title of the United States to the property free and clear of all liens and encumbrances.

D. Use of communications equipment is contingent upon the possession of a valid Federal Communications Commission (FCC) or Director of Telecommunications Management/Interdepartmental Radio Advisory Committee (DTM/IRAC) authorization (if required), and the operation of the equipment is in strict compliance with applicable requirements of FCC or IRAC. A copy of each applicable license or authorization must at all times be maintained by the Lessee for each transmitter being operated. The Lessee must provide the Authorized Officer, when requested, with current copies of all licenses for equipment in or on facilities covered by this lease.

E. The Lessee must ensure that equipment within his or her facility (including tenant and customer equipment) operates in a manner which will not cause harmful interference with the operation of existing equipment on or adjacent to the communications site. If the Authorized Officer or authorized official of the Federal Communications Commission (FCC) determines that the Lessee's use interferes with existing equipment, the Lessee must promptly take the necessary steps to eliminate or reduce the harmful interference to the satisfaction of the Authorized Officer or FCC official.

F. When requested by the Authorized Officer, the Lessee must furnish technical information concerning the equipment located on the property.

IV. LIABILITIES

A. The Lessee assumes all risk of loss to the authorized improvements.

B. The Lessee must comply with all applicable Federal, State, and local laws, regulations, and standards, including but not limited to, the Federal Water Pollution Control Act, 33 U.S.C. 1251 et seq., the Resource Conservation and Recovery Act, 42 U.S.C. 6901 et seq., the Comprehensive Environmental Response, Control, and Liability Act, 42 U.S. C. 9601 et seq., and other relevant environmental laws, as well as public health and safety laws and other laws relating to the siting, construction, operation, and maintenance of any facility, improvement, or equipment on the property.

C. The Lessee must indemnify, defend, and hold the United States harmless for any violations incurred under any such laws and regulations or for judgments, claims, or demands assessed against the United States in connection with the Lessee's use or occupancy of the property. The Lessee's indemnification of the United States must include any loss by personal injury, loss of life or damage to property in connection with the occupancy or use of the property during the term of this lease. Indemnification must include, but is not limited to, the value of resources damaged or destroyed; the costs of restoration, cleanup, or other mitigation; fire suppression or other types of abatement costs; third party claims and judgments; and all administrative, interest, and other legal costs. This paragraph survives the termination or revocation of this lease, regardless of cause.

D. The United States has no duty, either before or during the lease term, to inspect the property or to warn of hazards and, if the United States inspects the property, it will incur no additional duty nor any liability for hazards not identified or discovered through such inspections. This paragraph survives the termination or revocation of this lease, regardless of cause.

E. The Lessee has an affirmative duty to protect from damage the land, property, and interests of the United States.

E. (1). The Lessee must maintain \$1,000,000.00 worth of insurance coverage, naming the United States additionally insured on the policies(s), to partially fund the indemnification obligations of the Lessee for any and all losses due to personal injury, loss of life, or property damage, including fire suppression and hazardous waste costs. The Lessee must furnish proof of insurance (such as a surety bond, or certificate of insurance) to the Authorized Officer prior to execution of this lease and verify annually, and in writing, the insurance obligation to the Authorized Officer. The Authorized Officer may allow the Lessee to replace, repair, restore, or otherwise undertake necessary curative actions, to the satisfaction of the Authorized Officer, in order to mitigate damages in addition to or as an alternative to monetary indemnification.

F. In the event of any breach of the lease by the Lessee, the Authorized Officer may, on reasonable notice, cure the breach at the expense of the Lessee. If the Bureau of Land Management at any time pays any sum of money or does any act which requires payment of money, or incurs any expense, including reasonable attorney's fees, in instituting, prosecuting, and/or defending any action or proceeding to enforce the United States rights hereunder, the sum or sums so paid by the United States, with all

interests, costs and damages will, at the election of the Bureau of Land Management, be deemed to be additional rental hereunder and will be due from the Lessee to the Bureau of Land Management on the first day of the month following such election.

V. OTHER PROVISIONS

A. **Nondiscrimination.** The Lessee must at all times operate the described property and its appurtenant areas and its buildings and facilities, whether or not on the property, in full compliance with Title VI of the Civil Rights Act of 1964 and all requirements imposed by or pursuant to the regulations issued thereunder by the Department of the Interior and in effect on the date this lease is granted to the end that no person in the United States will, on the grounds of race, sex, color, religion, or national origin, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any of the programs or activities provided thereon.

B. Termination and Suspension.

1. **General.** For purposes of this lease, termination and suspension refer to the cessation of uses and privileges under the lease.

"Termination" refers to an action by the Authorized Officer to end the lease because of noncompliance with any of the prescribed terms, abandonment, or for reasons in the public interest. Termination also occurs when, by the terms of the lease, a fixed or agreed upon condition, event, or time occurs. For example, the lease terminates at expiration. Termination ends the Lessee's right to use the public land for communication purposes.

"Suspension" is a temporary action and the privileges may be restored upon the occurrence of prescribed actions or conditions.

2. This lease may be suspended or terminated upon breach of any of the terms or conditions herein or upon nonuse, or when in the public interest. Nonuse refers to a failure to operate consistently the facilities on the property for any period during the term in excess of 180 days. When suspended or terminated in the public interest, the Lessee will be compensated subject to the availability of appropriated funds. Compensation will be based upon the initial cost of improvements located on the lease, less depreciation as allocated over the life of the improvements as evidenced by the Lessee's Federal tax amortization schedules.
3. Except in emergencies, or in case of nonuse, the Authorized Officer will give the Lessee written notice of the grounds for termination or suspension and a reasonable time, not to exceed 90 days, to complete the corrective action. After the prescribed period, the Bureau of Land Management is entitled to such remedies as are provided herein.
4. Any discretionary decisions or determinations by the Authorized Officer on termination or suspension are subject to appeal in accordance with the regulations in Title 43, Code of Federal Regulations.

C. Restoration

1. In the event the Authorized Officer decides not to issue a new lease, or the Lessee does not desire a new lease, the Lessee must, prior to the termination of this lease, restore and stabilize the site to the satisfaction of the Authorized Officer.
2. In the event this lease is revoked for noncompliance, the Lessee must remove all structures and improvements within a reasonable period as determined by the Authorized Officer, except those owned by the United States, and must restore the site as nearly as reasonably possible to its original condition unless this requirement is otherwise waived in writing by the Authorized Officer.
3. If the Lessee fails to remove all structures or improvements within the prescribed period, they will become the property of the United States and may be sold, destroyed, or otherwise disposed of without any liability to the United States.

D. **Members of Congress.** No member of or Delegate to Congress or Resident Commissioner may benefit from this lease either directly or indirectly, except when the lease provides a general benefit to a corporation.

E. Reservations. This lease is granted subject to the following reservations by the United States:

1. The right to all natural resource products now or hereafter located on the property unless stated otherwise herein, and
 - a. the right to obtain, utilizes, or dispose of such resources insofar as the rights and possession of the Lessee are not unreasonably affected.
2. The right to modify the communications site plan as deemed necessary.
3. The right to enter upon the lease and inspect all facilities to assure compliance with the conditions of this lease.
4. The right of the United States to use or to authorize the use of the property for compatible uses, including the subsurface and air space.

In the event of any conflict between any of the preceding printed clauses or any provisions thereof and any of the following clauses or any provision thereof, the preceding printed clauses control.

Please see: **Exhibit A: Location Map**
Exhibit B: Stipulations

ACCEPTED this 27th day of May, 2016, I, the undersigned have read, understand and accept the terms and conditions of this lease.

Lessee

Mark Hansen

V. P. Network Support

IN WITNESS WHEREOF, the Bureau of Land Management, by its Authorized Officer, has executed this lease on the day and year first written above.

EXHIBIT B

COMMUNICATIONS SITE LEASE STIPULATIONS

1. The holder shall construct, operate, and maintain the facilities, improvements, and structures within this Lease in strict conformity with the information contained in Application. Any relocation, additional construction, or use that is not in accord with the terms and conditions of the grant shall not be initiated without the prior written approval of the authorized officer. A copy of the complete Communications Use Lease, including all stipulations, attachments, and approved plans of development, shall be made available to the authorized officer on the site during construction. Noncompliance with the above will be grounds for an immediate temporary suspension of activities if it constitutes a threat to public health and safety or the environment.
2. The authorized officer may suspend or terminate in whole, or in part, any notice to proceed which has been issued when, in his judgment, unforeseen conditions arise which result in the approved terms and conditions being inadequate to protect the public health and safety or to protect the environment.
3. The Archaeological Resources Protection Act (ARPA) codified at 43 CFR 7, as well as the Native American Graves Protection and Repatriation Act (NAGPRA) codified as 43 CFR 10, both provide protection for historic properties, cultural resources, and Native American funerary items and/or physical remains located on federal land. In addition, ARPA provides for the assessment of criminal and/or civil penalties for damaging cultural resources. Any unplanned discovery of cultural resources, human remains, items of cultural patrimony, sacred objects, or funerary items, requires that all activity in the vicinity of the find ceases, and notification be made to the Field Manager, Mount Lewis Field Office, 50 Bastian Road, Battle Mountain, Nevada 89820 (775-635-4000), by phone, with written confirmation to follow, immediately upon such discovery. The location of the find should not be publically disclosed and any human remains must be secured and preserved in place until a Notice to Proceed is issued by the authorized officer.

For cultural resources other than Native American human remains, funerary items, sacred objects, or objects of cultural patrimony, this evaluation will determine the significance of the discovery and what mitigation measures are necessary to allow activities to proceed. The holder is responsible for the cost of evaluation and mitigation. Any decision on treatment and/or mitigation will be made by the authorized officer after consulting with the permit holder. Operations may resume only upon written authorization to proceed from the authorized officer.

EXHIBIT B (Cont.)

4. The holder shall protect all survey monuments found within the Communications Use Lease area. Survey monuments include, but are not limited to, General Land Office and Bureau of Land Management Cadastral Survey Corners, reference corners, witness points, U.S. Coastal and Geodetic benchmarks and triangulation stations, military control monuments, and recognizable civil (both public and private) survey monuments. In the event of obliteration or disturbance of any of the above, the holder shall immediately report the incident, in writing, to the authorized officer and the respective installing authority if known. Where General Land Office or Bureau of Land Management right-of-way monuments or references are obliterated during operations, the holder shall secure the services of a registered land surveyor or a Bureau cadastral surveyor to restore the disturbed monuments and references using surveying procedures found in the Manual of Surveying Instructions for the Survey of the Public Lands in the United States, latest edition. The holder shall record such survey in the appropriate county and send a copy to the authorized officer. If the Bureau cadastral surveyors or other Federal surveyors are used to restore the disturbed survey monument, the holder shall be responsible for the survey cost.
5. Holder shall remove only the minimum amount of vegetation necessary within the Communications Use Lease area. Temporary surface disturbances created during construction activities will be reclaimed and where possible and if needed, topsoil shall be conserved during excavation and reused as cover on disturbed areas to facilitate regrowth of vegetation.
6. All design, material, and construction, operation, maintenance, and termination practices shall be in accordance with safe and proven engineering practices.
7. Holder shall limit excavation to the areas of construction. No borrow areas for fill material will be permitted on the site. All off-site borrow areas on public lands must be approved in writing by the authorized officer in advance of excavation. All waste material resulting from construction or use of the site by holder shall be removed from the site. All waste disposal sites on public land must be approved in writing by the authorized officer in advance of use.
8. Construction sites shall be maintained in a sanitary condition at all times; waste materials at those sites shall be disposed of promptly at an appropriate waste disposal site. "Waste" means all discarded matter including, but not limited to, human waste, trash, garbage, refuse, oil drums, petroleum products, ashes, and equipment.
9. The holder(s) shall comply with all applicable Federal laws and regulations existing or hereafter enacted or promulgated. In any event, the holder(s) shall comply with the Toxic Substances Control Act of 1976, as amended (15 U.S.C. 2601, et seq.) with regard to any toxic substances that are used, generated by or stored on the lease or on facilities authorized under this communications site lease. (See 40 CFR, Part 702-799 and especially, provisions on polychlorinated biphenyls, 40 CFR 761.1-761.193.) Additionally, any release of toxic substances (leaks, spills, etc.) in excess of the

EXHIBIT B (Cont.)

reportable quantity established by 40 CFR, Part 117 shall be reported as required by the Comprehensive Environmental Response, Compensation and Liability Act of 1980, Section 102b. A copy of any report required or requested by any Federal agency or State government as a result of a reportable release or spill of any toxic substances shall be furnished to the authorized officer concurrent with the filing of the reports to the involved Federal agency or State government.

10. At least 120 days prior to termination of the authorization, the holder shall contact the BLM authorized officer to arrange a joint inspection of the lease. This inspection will be held to agree to an acceptable termination (and rehabilitation) plan. This plan shall be prepared by the holder and shall include, but is not limited to, removal of facilities, drainage structures, or surface material, recontouring, topsoiling or seeding. The authorized officer must approve the plan in writing prior to the lessee's commencement of any termination activities.
11. During the period of May 1 through October 1 of each year, Holder should consider using spark arresters on vehicles and equipment in the project area, due to the potential for fire ignition from project related activities. This includes emission of hot carbon particles from diesel powered equipment, improperly equipped or poorly operating exhaust systems on gas powered vehicles and direct contact of wild land fuels with catalytic converters.

Individuals, groups, businesses or corporations found responsible for the ignition of a wild fire may be held liable for the costs associated with the suppression of that fire.
12. When requested by the authorized officer, the holder, or any person working on their behalf, shall make his equipment already at the site with operators, temporarily available for fighting fires in the vicinity of the project. Payment for such services will be made at rates determined by the authorized officer.
13. Holder will adhere to their weed management program. During construction activities in the area of the Right-of-Way grant, vehicles will avoid areas of weed infestation to the extent possible. To ensure that weed seeds or plant parts are not inadvertently spread, vehicles and construction equipment must be cleaned of all mud, dirt, and plant parts before construction activities begin. Yearly monitoring for invasive species would be part of the holder's routine site inspections. In the event any noxious weeds or other non-native invasive species are observed on the site, the holder would implement a program to eradicate them in accordance with directions from the BLM's Authorized Officer.
14. If construction activities need to occur during the bird nesting season (For Raptors, March 1 through August 31, for all others April 1 through July 31), a pre-construction site survey by a qualified biologist will be required. The survey must be done no more than seven (14) days before start of construction activities. If it is determined that nesting birds are present, a buffer zone (100 feet is recommended for migratory birds) will be established and maintained until the young birds have fledged. Holder shall ensure that

EXHIBIT B (Cont.)

- all empty raven and raptor stick nests will be removed outside of the nesting season (March 1-July 1) as part of an annual tower monitoring and maintenance inspection performed by the proponent
15. Fugitive dust from project related activities shall be controlled by the application of water.
 16. In case of change of address, the holder shall immediately notify the Mount Lewis Field Office authorized officer, in writing at 50 Bastian Road, Battle Mountain, NV 89820.
 17. The Holder of land use authorization N-94284 agrees to indemnify the United States against any liability arising from the release of any hazardous substance or hazardous waste (as these terms are defined in the Comprehensive Environmental Response, Compensation and Liability Act of 1980, 42 U.S.C. 9601, et. Seq. or the Resource Conservation and Recovery Act (RCRA) of 1976, as amended, 42 U.S.C. 6901 et seq.) on the land use authorization (unless the release or threatened release is wholly unrelated to the land use authorization Holder's activity on the land use authorization). This agreement applies without regard to whether a release is caused by the Holder, its agent, or unrelated third parties.
 18. Future modifications, construction of improvements, or major maintenance operations involving disturbance of the land, shall not occur until plans for such actions have been submitted and approved in writing by the Authorized Officer. Any proposals involving new surface disturbance shall require a cultural inventory and may require completion of an environmental assessment.
 19. All structures shall meet the requirements of the latest codes governing designs of facilities as outlined in the International Building Codes. All construction, operation, and maintenance of facilities shall meet specifications contained in Motorola's publication "Standards and Guidelines for Communications Sites R56", most recent edition (a.k.a., Motorola R56 standards). All electric facilities, equipment, and their installation shall conform to the current National Electrical Safety Code and applicable laws and regulations.
 20. All equipment in the facility must be clearly posted with the owner's name and operating frequency.
 21. The holder shall ensure that the BLM serial number assigned to this authorization is posted on the door of the holder's building in letters that are at least 1.5" high.
 22. Subleasing of space or equipment to additional telecommunications providers is allowed under this lease. See Section III "Responsibilities of the Lessee", within the Communications Use Lease.
