Scotchmans Gulch Fire Fuel Break Log Deck Sale

Decision and Rationale on Action

It is my decision to implement the Scotchmans Gulch Fire Fuel Break Log Deck Sale. The goal of the sale is to remove log decks that were created as a result of fire suppression activities designed to create a fuel break along an established road.

In addition, I have reviewed the plan conformance statement and have determined that the proposed action is in conformance with the approved land use plan and that no further environmental analysis is required under the National Environmental Policy Act (as documented in the attached CX, NEPA Compliance [Section C]).

Implementation Date

This project will be implemented on or after July 1, 2016 depending on site accessibility, weather, and road conditions.

Date

Administrative Review or Appeal Opportunities

This Forest Management decision document for the purpose of protests under 43 CFR Subpart 5003 – Administrative Remedies. Protests for this sale must be filed in the Missoula Field Office within 15 days after first publication of this notice. As interpreted by the BLM, the regulations do not authorize the acceptance of protests in any form other than a written hard copy that is delivered to the physical address of the advertising BLM office.
