Description of Proposed Action: Assignment of right-of-way for an access road and well pad for the Greasewood Wash Unit 13-36 well from WPX Energy Rocky Mountain, LLC to WPX Energy RM Company.

Decision:

I have reviewed the proposed action for the assignment of the access road and well pad ROW for the Greasewood Wash Unit 13-36 well (DOI-BLM-D040-2016-0141CX) using the Categorical Exclusion Review (CER) process described in BLM Manual H-1790-1. I have determined that the assignment is in conformance with the approved land use plan, that the action would not result in significant environmental effects, and that no extraordinary circumstances apply. Therefore, it does not represent an exception, and is categorically excluded from further environmental review.
