COC73892

Township 9 South, Range 94 West, 6th P.M.
Section 11: lots 1 & 2 and E1/2NW1/4
Mesa County, Colorado
Acres: 167.26
Formation: Mesaverde

APPLICANT: Laramie Energy, LLC, 760 Horizon Drive, Suite 101, Grand Junction, CO 81506

DESCRIPTION OF PROPOSED ACTION: On May 23, 2016, Laramie Energy, LLC. submitted to the BLM Grand Junction Field Office (GJFO) a request for the creation of the DSO of Communitization Agreement (CA) (Casefile COC35824, COC56624, COC57583, COC61262, COC62533, COC67646, COC69946, COC69947, COC72360, COC72361, COC72362, COC73891, and COC73892) including Federal and private oil and gas leases underlying the lands located as described above. The requested CAs would pertain to natural gas and associated hydrocarbons producible from the Mesaverde Group.

Land Use Plan Conformance

The Proposed Action is subject to, has been reviewed for, and is in conformance with (43 CFR §1610.5 and § 2800, BLM 1617.3) the following plan:

Land Use Plan (LUP) Name: The current land use plan is the Grand Junction Field Office Record of Decision and Approved Resource Management Plan (ROD/RMP).

Date Approved: August 10, 2015.

Determination of Conformance: The Proposed Action is subject to and has been reviewed for and is in conformance with (43 CFR §1610.5 and § 2800, BLM 1617.3) the GJFO land use plan.

Decision Page and Language: Page 181, Fluid Minerals, MIN-OBJ-01 – “Facilitate orderly, economic and environmentally sound exploration and development of oil and gas resources... using the best available technology.”

Compliance with NEPA

The proposed action is categorically excluded from further documentation under NEPA in accordance with 43 CFR 46.205 and 516 DM 11.9 (B)(3), (Oil, Gas, and Geothermal Energy). “Approval of unitization agreements, communitization agreements, drainage agreements, underground storage agreements, development contracts, or geothermal unit or participating area agreements.” This CX is correctly applied to the proposed action because approval by the BLM of a CA is an administrative action that does not authorize surface-disturbing activities or other operations with the potential to affect the environment but allows the development of leases that otherwise could not be developed in conformity to established well-spacing orders. Therefore, a CA creates no environmental impact.

Furthermore, no surface-disturbing activities or drilling activities related to BLM surface lands or Federal mineral lease would be authorized except as analyzed and approved in a project-specific NEPA analysis.

An action that is normally categorically excluded must be evaluated to determine whether it meets any “extraordinary circumstances” in which a normally excluded action may have a significant environmental impact. 43 CFR 46.205(c), 46.215. The applicability of extraordinary circumstances is determined by the responsible official. *Id.* § 46.215. The proposed action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 and the BLM NEPA Handbook H-1790-1, App. 5 (Table 1) was found to apply. Any “Yes” answer in Table 1 would preclude use of the CX.

Table 1. Extraordinary Circumstances	Yes	No
1. May have significant impacts on public health and safety.		<u>No</u>
2. May have significant impacts on such natural resources and unique geographic characteristics as historic or cultural resources; park, recreation or refuge lands; wilderness areas; wild and scenic rivers; national natural landmarks; sole or principal drinking water aquifers; prime farmlands; wetlands (Executive Order 11990); floodplains (Executive Order 119880; national monument; migratory birds; and other ecologically significant or critical areas.		<u>No</u>
3. May have highly controversial environmental effects or involve unresolved conflicts concerning alternative uses of available resources (NEPA Section 102 (2) (E)).		<u>No</u>
4. May have highly uncertain and potentially significant environmental effects or involve unique or unknown environmental risks.		<u>No</u>
5. May establish a precedent for future action or represent a decision in principle about future actions with potentially significant environmental effects.		<u>No</u>
6. May have a direct relationship to other actions with individually insignificant but cumulatively significant environmental effects.		<u>No</u>
7. May have significant impacts on properties listed or eligible for listing, on the National Register of Historic Places as determined by either the bureau or office.		<u>No</u>
8. May have significant impacts on species listed or proposed to be listed, on the List of Endangered or Threatened Species, or have significant impacts on designated Critical		<u>No</u>

None – Internal Process

BLM Review

In addition to the preparer and undersigned, BLM staff from the Colorado State Office, Fluid Minerals Program, listed in Table 2 participated in the preparation of this CX.

Table 2. BLM Reviewers		
<i>Name</i>	<i>Title</i>	<i>Areas of Participation</i>
Stephen Garcia	Petroleum Engineer	Communitization Agreement
Wendy Huber	Land Law Examiner	Communitization Agreement
Steven W. Ficklin	Program Manager	Communitization Agreement

Remarks/Mitigation: None

Name of Preparer: Wendy Huber, Land Law Examiner

Date: June 15, 2016

Decision and Rationale: I have reviewed this categorical exclusion record and have decided to implement the proposed action.

I have reviewed Section B, Land Use Plan Conformance, and Section C, Compliance with NEPA, and have determined that the Proposed Activity is in conformance with the applicable land use plan(s) and referenced NEPA documents. This action is listed in the Department Manual as an action that may be categorically excluded. The categorical exclusion is appropriate in this situation because there are no extraordinary circumstances potentially having effects that may significantly affect the environment. The

proposed action has been reviewed, and none of the extraordinary circumstances described in 43 CFR 46.215 and the BLM NEPA Handbook H-1790-1, App. 5, applies.

In making this decision, I have considered comment from interested parties, although all such comments may not be expressly addressed herein.

I considered the potential impacts from issuance of a communitization agreement and have determined that no impacts would result from approval of this action and that any future development proposals with the potential to create environmental impacts would require additional NEPA analysis. Future NEPA analysis or analyses would consider the underlying leasing decisions as well as development proposals.
