Comments (use back if needed):

Living at ground zero of the war
on the use of our natural resources,
I talk to & have family that has been
affected by my government's actions to
kill our industries here in my state,
county & city. I have a service company and
a retail store and can attest to the
affect on our bottom line. The families
that are affected by killing the use of our
coal given natural resources sad and wrong.
Our government that is supposedly for the
people is the one perpetrating this going
against the tax payers. Stop the madness!
