Public Disclosure. Before including your address, e-mail address, or other personal identifying information in your comment, please be advised that your entire comment, including your personal identifying information, may be made publicly available at any time. While you may request that we withhold your personal identifying information from public review, we cannot guarantee that we will be able to do so.

Comments (use back if needed):

Coal is not a viable resource in our current climate. For the sake of our future generations, please consider reducing our dependence on the substance by diverting coal finding toward alternative fuel sources, such as Thorium nuclear power = fission.
