Comments (use back if needed):

It is apparent, even to someone with little  
understanding of coal leasing intricacies, that  
Powder River Basin coal is being sold at a fraction of  
its market value, bease by application and certification  
of PRB as a non-coal producing area is depriving us  
of the revenue needed to help coal working communities  
survive and transition from the decline in the industry.

Winning bids should also put up the money necessary for  
reclamation, so that we are not forced to clean up  
after these companies
