

EDWARD SHILOH: My name is Edward Shiloh from Knoxville, Tennessee, and my school year ended May 19th. I could be anywhere in Knoxville, Tennessee, but I decided to be here to speak in front of you all. (Audience Applause) EDWARD SHILOH: I would like to thank you for engaging our community affected by the coal mining. It affected us with our health, our economy, or even our wildlife. So, thank you for feeling concerned enough to speak to the people to fix our communities. Thank you.
