

MR. CARTER: Lance Carter of SUFCO Depo. I'm against it, I'm with the governor. I had a speech, but everybody's gone over everything. Solar panels, what are we going to do, trade breeding grounds for coyotes? The bats getting hit by wind mills, they won't be able to eat the mosquitos carrying the Zika virus. We can put some of this money into coal. Three years down the road, we might not be able to. We need to put that money into our coal, yeah. Thanks.
