Comments (use back if needed):

The standards in force and in place at
coal fired power plants today go above
and beyond what is necessary to remove
pollutants from the emissions.

Our skies are blue, you can see stars @
night. Coal fired power plants do NOT
pollute the way the media says it does.

Why don't we get rid of our government.
They are destroying our country faster
every day. We all can't be on welfare.
Some one has to work!
