1 ceremonies such as First Food feasts and for funerals,
2 memorials and name giving, these are just some of the
3 ceremonies that we utilize our fish for, but these are
4 being compromised today. So I implore you, please let us
5 stop the coal trains today.

6 MR. BATTIS: Thank you.

7 MR. SUPPALI: [Speaking in Native
8 language.] Good afternoon. My name is Delson Suppali.
9 I'm a member of the Confederated Tribes of Warm Springs,
10 the Warm Springs Tribe.

11 We are all one, all made by the same maker and must
12 share all his creation equally. You are ordained to
13 uphold the stewardship of our Mother Earth. We are
14 counting on you to wake up and hear her crying.

15 You hear her crying through the research that has
16 been brought forth to you. Would you let your mother cry
17 in pain and know that she's going to die and you continue
18 to put pain to her? Would you do that?

19 You answer that question and that's an easy answer
20 to what we need to do with coal and oil and any other
21 contamination that is harmful to all life. Money isn't a
22 priority. It's a manmade product and the world has taken
23 it on and puts it out in front of life. Life is not --
24 if I ask you how much you were worth, what would you say?

25 I've heard a lot of testimony about money and jobs

**Byers & Anderson Court Reporters/Video/Videoconferencing

1 and things today. Is that what your life is worth, only
2 that? Many times I ask that question in counseling and
3 the person says they're priceless. Why not behave that
4 way?

5 When you are ordained to uphold that pricelessness
6 of who we are and what we stand on, you come from Mother
7 Earth, I come from Mother Earth. That's what oneness
8 means. And what we do to Mother Earth is going to
9 sustain us or we're all going to disappear. And we're
10 headed to disappearing right now if we don't stop the oil
11 and things that are coming.

12 Money cannot rule your decision. Jobs cannot rule
13 your decision. Our life forever for generations to come
14 needs to step up in your mind and heart to live by. Your
15 promises are words. They will blow away with the wind
16 when you do not take care of all life.

17 And you need to stand up for the treaty. That's
18 supreme law of this land. That law was here before the
19 Constitution of the United States of America. Let's live
20 by that.

21 MR. BATTIS: Thank you. 36 through 40,
22 over here with Molly on Microphone No. 2.

23 We are going to move to Microphone No. 1. Are we
24 good? Good to go, sir.

25 MR. FOSTER: Okay. I'm Michael Foster
