

Bull Mountain Unit Master Development Plan Record of Decision

October 2017

BLM

The Bull Mountain Unit Master Development Plan Record of Decision is available!

The Bull Mountain Unit Master Development Plan Record of Decision (ROD) is available for download on the BLM's website: <http://bit.ly/2vZQi89>.

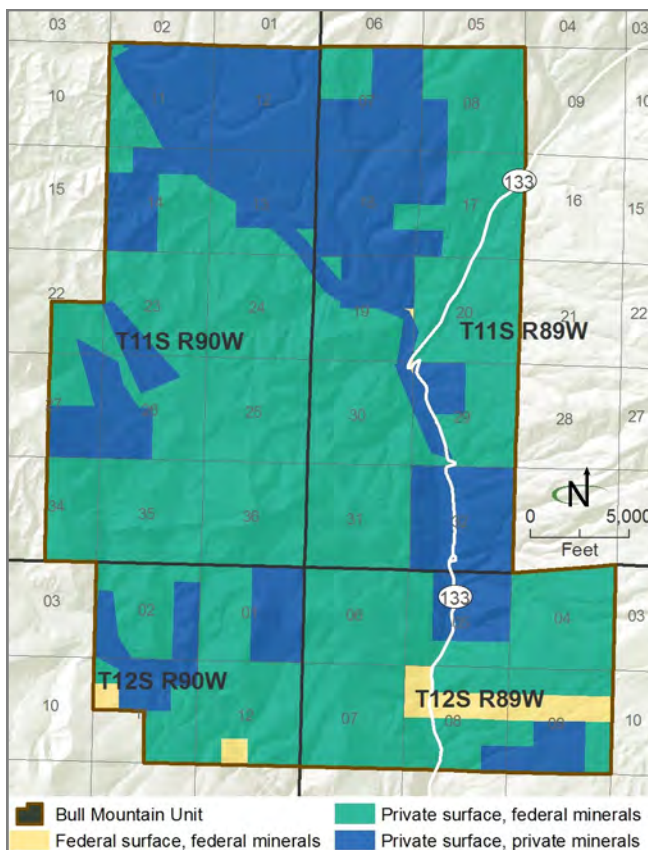

The Record of Decision documents the Bureau of Land Management (BLM) Southwest District Manager's decision to approve, with minor modifications, the Preferred Alternative (Alternative D) as described in the Final Environmental Impact Statement (EIS) for the Bull Mountain Unit Master Development Plan (MDP). The Selected Alternative approves a plan for the exploration and development of up to 146 natural gas wells, four water disposal wells, and associated infrastructure on federal and private mineral leases within the federally-unitized Bull Mountain Unit.

The decision includes conditions of approval that specifically address impacts to air resources and air quality related values, water resources, and wildlife. Approval of the Preferred Alternative, as described in the 2016 Final EIS with minor modifications, meets the BLM's purpose and need, provides for natural gas exploration and development, and approves the federal 12-89-7-1 Application for Permit to Drill (APD).

Administrative Review

An adversely affected party may seek administrative review of the decision by the Colorado State Director, as provided in 43 CFR 3165.3. A request for State Director review must be filed in the BLM Colorado State Office within 20 business days from the date of receipt of the decision.

For Further Information

Further information and document links are available on the BLM project website at: <http://bit.ly/2vZQi89>. If you have any questions or require additional information, please contact:
