

Attachment 1
Parcel Descriptions with Stipulations
181Q First Quarter 2018 Competitive Oil & Gas Lease Sale
DOI-BLM-WY-R000-2017-0002-EA

Included in this Attachment are all of the parcels, as amended, which were nominated through “Expressions of Interest” (EOI) for the 181Q First Quarter 2018 Competitive Oil & Gas Lease Sale (181Q Sale). Parcel stipulations have been applied, and any parcel changes noted.

Attachment 1-A is an overview chart of the Lease Notices, Timing Limitation Stipulations (TLS), Controlled Surface Use (CSU), and No Surface Occupancy (NSO) stipulations applied to the lease parcels. As all lease parcels include Lease Notice 1, 2, 3, and Lease Stip 1, 2, 3, they are not individually identified in the chart.

Full Lease Stipulation Descriptions are located in Attachment 1-B, Parcel Stipulation Code Index.

Lease stipulations that have been applied are in conformance and consistent with the approved Resource Management Plans for the Lander, Worland, Cody, and Rawlins Field Offices:

- Lander Record of Decision and Approved Resource Management Plan for the Lander Field Office Planning Area, June 26, 2014
- Appendix I, Oil & Gas Lease Stipulations
- Lander FO Post ROD Changes

- Rocky Mountain Region Record of Decision (ROD) Worland Field Office, September 22, 2015
- Worland Field Office Resource Management Plan, September 22, 2015
- Appendix B., Oil and Gas Lease Notices and Lease Stipulations, including Exception, Modification, and Waiver Criteria

- Rocky Mountain Region Record of Decision (ROD) Cody Field Office, September 22, 2015
- Cody Field Office Resource Management Plan, September 22, 2015
- Appendix B., Oil and Gas Lease Notices and Lease Stipulations, including Exception, Modification, and Waiver Criteria

- BLM 2008. Rawlins Field Office Proposed Resource Management Plan and Final Environmental Impact Statement, U.S. Department of the Interior, Bureau of Land Management, Wyoming.
- BLM 2008. Rawlins Field Office Approved Resource Management Plan and Record of Decision, U.S. Department of the Interior, Bureau of Land Management, Wyoming.
- BLM 2015. Rawlins Field Office, RMP Amendments.

- BLM 2015. Approved Resource Management Plan Amendment and Record of Decision for Greater Sage-Grouse for Casper, Kemmerer, Newcastle, Pinedale, Rawlins, and Rock Springs Field Offices. U.S. Department of the Interior, Bureau of Land Management, Wyoming.

Special Lease Notice: This parcel contains known sites of traditional religious and cultural importance to Native American Tribes. Prior to approval of an Application for Permit to Drill (APD) or other authorizations allowing surface-disturbing activities on the lease, the BLM will require compliance with all applicable requirements of the National Historic Preservation Act, Archaeological Resources Protection Act, American Indian Religious Freedom Act, Native American Graves Protection and Repatriation Act, Executive Order 13007 (Indian Sacred Sites), and Executive Order 13175 (Consultation and Coordination with Indian Tribal Governments) which may include tribal consultation with Native American Tribes at the proponent's expense.

NSO (1) No surface occupancy or use is allowed on slopes greater than 25 percent as mapped on the Lander Field Office GIS database; (2) protecting areas containing slopes greater than 25 percent.

NSO No surface occupancy or use is allowed within 500 feet of perennial surface waters, riparian-wetland areas and/or playas (1) as mapped on the Lander Field Office GIS database; (2) to protect perennial surface waters, riparian-wetland areas, and/or playas.

NSO To protect wildlife parturition areas and viewshed, mineral management of 7,383 acres south of Green Mountain (see Map 11) are open to oil and gas leasing subject to NSO stipulations.

TLS Surface-disturbing and disruptive activities are restricted within the identified bankfull channel width of fish-bearing streams (1) Sep 15 to Nov 30; (2) as mapped on the Lander Field Office GIS database; (3) to protect fall spawning habitat within the bankfull channel width of fish-bearing streams.

TLS (1) Surface disturbing and disruptive activities within identified big game crucial winter range are prohibited Nov 15 to Apr 30; (2) as mapped on the Lander Field Office database; (3) protecting big game crucial winter range.

TLS Surface disturbing and disruptive activities within identified elk winter range are prohibited (1) Nov 15 to Apr 30; (2) as mapped on the Lander Field Office database; (3) protecting elk winter range.

TLS (1) Surface disturbing and disruptive activities are restricted or prohibited within 1 mile of bald eagle and ferruginous hawk nests and 3/4

mile of all other active raptor nests during the following time periods: Apr 1 to Aug 31 for northern goshawk, Apr 1 to Sep 15 for burrowing owl, Feb 1 to Aug 15 for bald eagles, Feb 1 to Jul 31 for all other raptors;(2) as mapped on the Lander Field Office GIS database; (3) for the protection of active raptor and/or eagle nests.

CSU (1) Surface occupancy or use will be restricted in areas identified as limited reclamation potential soils; (2) as mapped on the Lander Field Office GIS database; (3) for the protection of sensitive soil resources.

CSU (1) Surface occupancy or use will be restricted on slopes between 15 and 24 percent; (2) as mapped on the Lander Field Office GIS database; (3) to protect areas containing slopes between 15 and 24 percent.

CSU (1)Surface use or occupancy will be restricted within designated "very high" or "high" potential fossil yield classification areas (2) as mapped on the Lander Field Office GIS database; (3) for the protection of fossil resources.

Lease Notice 1041

NSO (1) Within 500 feet of perennial surface water, riparian/wetland areas, and playas; (2) as mapped on the Cody Field Office GIS database.

TLS (1) No surface use is allowed within 1/4 mile of active raptor nests and 1/2 mile of active golden eagle, bald eagle, northern goshawk, merlin, and prairie and peregrine falcon nests and 1 mile of active ferruginous hawk nests during specific species nesting period or until young birds have fledged. This stipulation does not apply to operation and maintenance of production facilities. Timing Limitation Stipulation during the following time periods: American Kestrel Apr 1 to Aug 15, Bald Eagle Jan 1 to Aug 15, Boreal Owl Feb 1 to Jul 31, Burrowing Owl Apr 1 to Sept 15, Common Barn Owl Feb 1 - Sept 15, Cooper's Hawk Mar 15 to Aug 31, Eastern Screech-owl Mar 1 to Aug 15, Ferruginous Hawk Mar 15 to Jul 31, Golden Eagle Jan 15 to Jul 31, Great Gray Owl Mar 15 to Aug 31, Great Horned Owl Dec 1 to Sept 31, Long-eared Owl Feb 1 to Aug 15, Merlin Apr 1 to Aug 15, Northern Goshawk Apr 1 to Aug 15, Northern Harrier Apr 1 to Aug 15,

Northern Pygmy-Owl Apr 1 to Aug 1, Northern Saw-whet Owl Mar 1 to Aug 31, Osprey Apr 1 to Aug 31, Peregrine Falcon Mar 1 to Aug 15, Prairie Falcon Mar 1 to Aug 15, Red-tailed Hawk Feb 1 to Aug 15, Sharp-shinned Hawk Mar 15 to Aug 31, Short-eared Owl Mar 15 to Aug 1, Swainson's Hawk Apr 1 to Aug 31, Western Screech-owl Mar 1 to Aug 15, All other raptors Feb 1 to Jul 31, (2) as mapped by the WGFD, on the Cody Field Office GIS database or as determined by field evaluation; (3) protecting active raptor nests.

CSU (1) Surface occupancy or use within 1/4 mile of raptor nest sites will be restricted. Prior to surface disturbance within 1/4 mile of raptor nests a mitigation plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-5) - Surface Use Plan of Operations. The operator may not initiate surface-disturbing activities unless the BLM authorized officer has approved the plan or approved it with conditions. The plan must demonstrate to the BLM authorized officer's satisfaction that nesting raptors of conservation concern would not be agitated or bothered to a degree that causes or is likely to cause: physical injury; a decrease in productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior; or nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering behavior, or preclude nest reoccupation;(2) as mapped on the Cody Field Office GIS database, or determined by BLM field evaluation; (3) protecting raptor nest sites.

CSU (1) Surface occupancy or use will be restricted or prohibited up to 2 miles where setting is an important aspect of the integrity for the trail, unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; The Plan must demonstrate proposed infrastructure is either not visible or will result in a weak contrast rating.

Prior to surface disturbance within 1/4 mile of raptor nests a mitigation plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-5) - Surface Use Plan of Operations. The operator may not initiate surface-disturbing activities unless the BLM authorized officer has approved the plan or approved it with conditions. The plan must demonstrate to the BLM authorized officer's satisfaction that nesting raptors of conservation concern would not be agitated or bothered to a degree that causes or is likely to cause: physical injury; a decrease in productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior; or nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering

behavior, or preclude nest reoccupation;(2) as mapped on the Cody Field Office GIS database, or determined by BLM field evaluation; (3) protecting raptor nest sites.

CSU (1) Surface occupancy or use will be restricted within Class I and/or Class II VRM areas. Prior to surface disturbance within Visual Resource Management Class I and/or II areas, a site-specific plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-5) - Surface Use Plan of Operations. The operator shall not initiate surface-disturbing activities unless the BLM authorized officer has approved the plan (with conditions, as appropriate). The plan must demonstrate to the BLM authorized officer's satisfaction how the operator will meet the following performance standards: A visual contrast rating must demonstrate that VRM Class I and/or II objectives will be met. Where required by the BLM authorized officer, a visual simulation must be prepared and must demonstrate that VRM Class I and/or II objectives will be met through practices such as siting of permanent facilities. Where present and feasible, existing surface disturbances shall be utilized; new surface disturbances shall be minimized to the extent practicable. All permanent above-ground facilities (such as production tanks or other production facilities) not having specific coloration requirements for safety must be painted or designed using a BLM-approved color. (2) as mapped in the Cody Field Office GIS database; (3) protecting Class II Visual Resource Management Areas.

CSU (1) Surface occupancy or use will be restricted or prohibited up to 2 miles where setting is an important aspect of the integrity for the trail, unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; The Plan must demonstrate proposed infrastructure is either not visible or will result in a weak contrast rating.

Lease Notice 1041

TLS (1) Nov 15 to Apr 30; (2) as mapped on the Worland Field Office GIS database; (3) protecting big game crucial winter range.

TLS (1) No surface use is allowed within 1/4 mile of active raptor nests and 1/2 mile of active golden eagle, bald eagle, northern goshawk, merlin, and prairie and peregrine falcon nests and 1 mile of active ferruginous hawk nests during specific species nesting period or until young birds have fledged. This stipulation does not apply to operation and maintenance of production facilities. Timing Limitation Stipulation during the following time periods: American Kestrel Apr 1 to Aug 15, Bald Eagle Jan 1 to Aug 15, Boreal Owl Feb 1 to Jul 31, Burrowing Owl Apr 1 to Sept 15, Common Barn Owl Feb 1 - Sept 15, Cooper's Hawk Mar 15 to Aug 31, Eastern Screech-owl Mar 1 to Aug 15, Ferruginous Hawk Mar 15 to Jul 31, Golden Eagle Jan 15 to Jul 31, Great Gray Owl Mar 15 to Aug 31, Great Horned Owl Dec 1 to Sept 31, Long-eared Owl Feb 1 to Aug 15, Merlin Apr 1 to Aug 15, Northern Goshawk Apr 1 to Aug 15, Northern Harrier Apr 1 to Aug 15, Northern Pygmy-Owl Apr 1 to Aug 1, Northern Saw-whet Owl Mar 1 to Aug 31, Osprey Apr 1 to Aug 31, Peregrine Falcon Mar 1 to Aug 15, Prairie Falcon Mar 1 to Aug 15, Red-tailed Hawk Feb 1 to Aug 15, Sharp-shinned Hawk Mar 15 to Aug 31, Short-eared Owl Mar 15 to Aug 1, Swainson's Hawk Apr 1 to Aug 31, Western Screech-owl Mar 1 to Aug 15, All other raptors Feb 1 to Jul 31, (2) as mapped on the Worland Field Office GIS database or as determined by field evaluation; (3) protecting active raptor nests

CSU (1) Surface occupancy or use within 1/4 mile of raptor nest sites will be restricted. Prior to surface disturbance within 1/4 mile of raptor nests a mitigation plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-5) - Surface Use Plan of Operations. The operator may not initiate surface-disturbing activities unless the BLM authorized officer has approved the plan or approved it with conditions. The plan must demonstrate to the BLM authorized officer's satisfaction that nesting raptors of conservation concern would not be agitated or bothered to a degree that causes or is likely to cause: physical injury; a decrease in productivity, by substantially interfering with normal breeding, feeding, or sheltering behavior; or nest abandonment, by substantially interfering with normal breeding, feeding, or sheltering behavior, or preclude nest reoccupation; (2) as mapped on the Worland Field Office GIS database, or determined by BLM field evaluation; (3) protecting raptor nest sites.

CSU (1) Prior to surface disturbance within 3-mile or the visual horizon of important cultural sites, whichever is closer, a site-specific plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-4) - Surface Use Plan of Operations. The operator shall not initiate surface-disturbing activities unless the BLM authorized officer, in consultation with appropriate Native American tribes and the SHPO, has approved the plan (with conditions, as appropriate). The plan must demonstrate to the BLM authorized officer's satisfaction how the operator will meet the following performance standards: There will be no adverse effects to NRHP eligible or listed historic properties; (2) as mapped on the Worland Field Office GIS database; (3) protecting cultural and scenic values of important cultural sites.

CSU (1) Surface occupancy or use will be restricted or prohibited up to 2 miles where setting is an important aspect of the integrity for the trail unless the operator and surface managing agency arrive at an acceptable plan for mitigation of anticipated impacts; The Plan must demonstrate proposed infrastructure is either not visible or will result in a weak contrast rating.(2) as mapped on the Worland Field Office GIS database; (3) protecting other historic trails.

TLS (1) Nov 15 to Apr 30; (2) as mapped on the Worland Field Office GIS database; (3) protecting big game crucial winter range.

NSO (1) within 500 feet of perennial surface water, riparian/wetland areas, and playas; (2) as mapped on the Worland Field Office GIS database.

NSO (1) within 500 feet of waters rated by the WGFD as Class 1 or 2 fisheries; (2) as mapped on the Worland Field Office GIS database.

CSU (1) Surface occupancy or use is restricted within 1/4 mile of waters rated by the WGFD as Class 1 or 2 fisheries. Prior to surface disturbance within 1/4 mile of waters rated by the WGFD as Class 1 or 2 fisheries, a site-specific plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-5) - Surface Use Plan of Operations. The operator shall not initiate surface-disturbing activities unless the BLM authorized officer has approved the plan (with conditions, as appropriate). The plan must demonstrate to the BLM authorized officer's satisfaction how the operator will meet the following performance standards: Reserve pits should be designed to prevent possible contamination of soil and groundwater. Drill pad sites should be designed to disperse storm water runoff onto upland sites using proper erosion and sediment control techniques. Design road crossing of streams to allow fish passage at all flows. Design crossings such that they do not destabilize the channel or increase water velocity. Limit surface-disturbing activities within water channels during spring and fall spawning periods. (2) as mapped on the Worland Field Office GIS database (3) to protect designated Blue Ribbon and Red Ribbon fisheries habitat and fish populations.

CSU (1) Prior to surface disturbance within 3-mile or the visual horizon of important cultural sites, whichever is closer, a site-specific plan must be submitted to the BLM by the applicant as a component of the Application for Permit to Drill (BLM Form 3160-3) or Sundry Notice (BLM Form 3160-4) - Surface Use Plan of Operations. The operator shall not initiate surface-disturbing activities unless the BLM authorized officer, in consultation with appropriate Native American tribes and the SHPO, has approved the plan (with conditions, as appropriate). The plan must demonstrate to the BLM authorized officer's satisfaction how the operator will meet the following performance standards: There will be no adverse effects to NRHP eligible or listed historic properties; (2) as mapped on the Worland Field Office GIS database; (3) protecting cultural and scenic values of important cultural sites.
