RE: Willow Master Development Plan Draft SEIS Public Comment Period

Dear Mr. Cohn:

ConocoPhillips Alaska, Inc., requests BLM maintain a standard 45-day comment period on the Willow Master Development Plan Draft Supplemental Environmental Impact Statement.

The standard 45-day public comment period is sufficient time for the public to review and comment on the draft. The draft contains one new project alternative and clearly marked changes from the prior EIS, which went through multiple comment periods.

We are now in the fifth public comment period on the Willow project, totaling more than 215 days of public comment and 25 public meetings. Extending the current 45-day public comment period at this point would merely delay the process without serving the public interest.

Sincerely,

A handwritten signature in black ink, appearing to read 'Connor Dunn', written over a light blue horizontal line.

Connor Dunn
